Docket Numbers: ER05-949-001.

Applicants: Midwest Independent Transmission System Operator, Inc.

Description: Midwest Independent Transmission System Operator, Inc. submits its Large Generator Interconnection Agreement with Power Partners Midwest, LLC, Midwest ISO, and Northern Indiana Public Service Co.

Filed Date: 08/30/2005.

Accession Number: 20050831-0051.

Comment Date: 5 p.m. Eastern Time on Tuesday, October 11, 2005.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern Time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

[Project No. 2354-087 Georgia]

Georgia Power Company; Notice of Availability of Environment Assessment

September 28, 2005.

An environmental assessment (EA) is available for public review. The EA was prepared for an application filed by Georgia Power Company on June 2, 2005, requesting the Commission's authorization to permit the Clayton-Rabun County Water and Sewer Authority (Authority) to increase its water withdrawal from Lake Rabun, a reservoir of the North Georgia Project, from 2.0 million gallons per day to 3.5 million gallons per day for municipal water supply.

The EA evaluates the environmental impacts that would result from permitting the Authority to increase its

water withdrawal from Lake Rabun, as stated above. The existing 10-inch piping from the intake pumps to the distribution main would be replaced with 16-inch piping. No significant construction activity would be required within the project boundary. The EA finds that approval of the application would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a Commission order titled "Order Approving Non-Project Use of Project Lands and Waters", issued September 27, 2005, and is available at the Commission's Public Reference Room. A copy of the EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "elibrary" link. Enter the docket number (P-2354) in the docket number field to access the document. For assistance, call (202) 502-8222 or (202) 502-8659 (for TTY).
