**SUPPLEMENTARY INFORMATION:** The purpose of the consultation meetings is to provide Native American organizations, museums and the scientific community, and the Native American Graves Protection and Repatriation Review Committee with an opportunity to consult on forthcoming regulations regarding the disposition of unclaimed Native American cultural items excavated or discovered on Federal or tribal lands after November 16, 1990.

The Native American Graves Protection and Repatriation Act provides criteria for determining the ownership of Native American cultural items that are excavated or discovered on Federal or tribal lands after November 16, 1990 [25 U.S.C. 3002 (a)]. The Secretary of the Interior clarified the ownership criteria by regulations published in 1995 [*Federal Register* Vol.60, no. 232, pages 62163–62164]. Ownership of such items is, with priority given in the order listed:

(1) In the case of human remains and associated funerary objects, in the lineal descendant of the deceased individual;

(2) In cases where the lineal descendant cannot be ascertained or no claim is made, and with respect to unassociated funerary objects, sacred objects, and objects of cultural patrimony;

(i) In the Indian tribe on whose tribal land the human remains, funerary objects, sacred objects, or objects of cultural patrimony were discovered inadvertently;

(ii) In the Indian tribe or Native Hawaiian organization that has the closest cultural affiliation with the human remains, funerary objects, sacred objects, or objects of cultural patrimony;

(iii) In circumstances in which the cultural affiliation of the human remains, funerary objects, sacred objects, or objects of cultural patrimony cannot be ascertained and the objects were discovered inadvertently on Federal land that is recognized by a final judgment of the Indian Claims Commission or the United States Court of Claims as the aboriginal land of an Indian tribe;

(A) In the Indian tribe aboriginally occupying the Federal land on which the human remains, funerary objects, sacred objects, or objects of cultural patrimony were discovered, or

(B) If it can be shown that a different Indian tribe or Native Hawaiian

organization has a stronger cultural relationship with the human remains, funerary objects, sacred objects, or objects of cultural patrimony, in the Indian tribe or Native Hawaiian organization that has the strongest demonstrated relationship with the objects [43 CFR 10.6 (a)].

The Act directs that Native American cultural items not claimed under subsection (a) shall be disposed of in accordance with regulations promulgated by the Secretary of the Interior in consultation with the Review Committee, Native American groups, representatives of museums, and the scientific community [25 U.S.C. 3002 (b)]. One section of the regulations was reserved for procedures to effect the disposition of Native American cultural items that are not claimed [43 CFR 10.7].

Participants in the consultation meetings are requested to comment on the following issues:

(1) How should the regulations deal with the distinction between cultural items for which ownership or control has been ascertained pursuant to 43 CFR 10.6 (a) but the identified lineal descendant, Indian tribe, or Native Hawaiian organization has not claimed the cultural items and cultural items for which ownership or control cannot be ascertained pursuant to 43 CFR 10.6 (a)?

(2) How long may a cultural item removed from Federal land after November 16, 1990 remain in Federal agency possession before it is considered unclaimed?

(3) What are the appropriate dispositions for unclaimed cultural items?

(4) How should the regulations deal with the management, preservation, and use of unclaimed cultural items?

## DEPARTMENT OF THE INTERIOR

### National Park Service

#### Notice of Inventory Completion: Pacific Lutheran University, Tacoma, WA

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains in the possession of Pacific Lutheran University, Pierce County, Tacoma, WA. The human remains were

removed from a site in Parkland, Pierce County, WA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by Pacific Lutheran University professional staff in consultation with representatives of the Confederated Tribes and Bands of the Yakama Nation, Washington; Confederated Tribes of the Colville Reservation, Washington; Cowlitz Indian Tribe, Washington; Muckleshoot Indian Tribe of the Muckleshoot Reservation, Washington; Nisqually Indian Tribe of the Nisqually Reservation, Washington; and Puyallup Tribe of the Puyallup Reservation, Washington.

Prior to 1938, human remains representing a minimum of one individual were removed from an unidentified site in Parkland, Pierce County, WA. The human remains were originally transferred to a Pacific Lutheran University faculty member who loaned them, along with other items from the same site, to the University of Washington, Burke Museum, Seattle, WA, in 1938. Most of the 1938 loan was returned in the early 1940s. However, the human remains were discovered in the Burke Museum's collections in 1995 and transferred to Pacific Lutheran University. No known individuals were identified. No associated funerary objects are present.

Funerary objects originally found with the remains, but no longer in the possession of either the Burke Museum or Pacific Lutheran University, indicate the human remains were interred during the historic period. The burial site location is located within the area ceded to the United States by the Niskwally, Payullup, Steilacoom, Squaxin, S'Homamish, Stehchass, T'Peeksin, Squiaitl, and Sa-heh-wamish in the treaty of Medicine Creek, December 26, 1854. The burial site location is believed to be located within the area recognized by a final judgment of the United States Court of Claim as the aboriginal land of the Puyallup Tribe of the Puyallup Reservation, Washington.

Officials of Pacific Lutheran University have determined that, pursuant to 25 U.S.C. 3001 (9–10), the human remains described above represent the physical remains of one
