FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 05-2500; MB Docket No. 05-269; RM-11267]

Radio Broadcasting Services; Allegan, Mattawan and Otsego, MI

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Audio Division seeks comment on a petition filed by Forum Communications, Inc., licensee of FM Station WZUU, proposing the substitution of Channel 223A for Channel 222A at Allegan, reallocation of Channel 223A from Allegan to Mattawan, Michigan, as its first local service and modification of the FM Station WZUU license accordingly. To prevent removal of Allegan's sole local service, Petitioner also requests the reallocation of co-owned Station WQXC-FM, Channel 265A from Otsego to Allegan, Michigan and modification of the Station WQXC-FM license accordingly. A staff engineering analysis has determined that Channel 223A can be allotted to Mattawan in conformity with the Commission's rules, provided there is a site restriction of 10.6 kilometers (6.6 miles) southeast at reference coordinates 42-07-45 NL and 85-43-13 WL. Additionally, Channel 265A can be allotted to Allegan in compliance with the Commission's rules, at the Station WQXC(FM) existing transmitter site at coordinates 42-30-31 NL and 85-46-08 WL. Canadian concurrence has been requested because the proposed reallocations are both located within 320 kilometers (199 miles) of the U.S.-Canadian border. In accordance with the provisions of Section 1.420(i) of the Commission's rules, we shall not accept competing expressions of interest pertaining to the

use of Channel 223A at Mattawan or Channel 265A at Allegan.

DATES: Comments must be filed on or before November 17, 2005, and reply comments on or before December 2, 2005.

ADDRESSES: Federal Communications Commission, 445 Twelfth Street, SW., Washington, DC 20554. AGENCY: Federal Communications Commission.

ACTION: Proposed rule; dismissal.

SUMMARY: In response to a *Notice of Proposed Rule Making* ("Notice"), 67 FR 64080 (October 17, 2002), this *Report and Order* dismisses a rulemaking proceeding requesting that Channel 279C, Station WUSW(FM), Hattiesburg, Mississippi, be downgraded to Channel 279C0, and reallocated to Westwego, Louisiana; and that Channel 281C, Station KHEV(FM), Houma, Louisiana, be downgraded to Channel 281C0 and reallocated to Gonzales, Louisiana. Clear Channel Broadcasting Licenses, Inc., the proponent of this rulemaking, requested Commission approval for the withdrawal of its Petition for Rule Making and its expressions of interest in implementing its rulemaking proposals. Clear Channel filed a declaration that neither it nor any of its principals has received or will receive any consideration in connection with the withdrawal of its expression of interest in this proceeding.

Fisheries Off West Coast States and in the Western Pacific; Pacific Coast Groundfish Fishery; Limited Entry Fixed Gear Sablefish Fishery Permit Stacking Program

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS issues this proposed rule to implement portions of Amendment 14 to the Pacific Coast Groundfish Fishery Management Plan (FMP) for 2007 and beyond. Amendment 14, approved by NOAA in August 2001, created a permit stacking program for limited entry permits with sablefish endorsements. This proposed rule would implement regulatory measures from Amendment 14 that the agency could not set in place in time for

the 2001 through 2006 primary sablefish seasons. Amendment 14 was intended to improve safety in the primary sablefish fishery and to provide greater season flexibility for sablefish fishery participants.

DATES: Comments must be submitted in writing by December 12, 2005.

ADDRESSES: You may submit comments on the proposed rule to implement further limited entry sablefish permit stacking program regulations, identified by 091305A, by any of the following methods:

- E-mail:

Amendment14b.nwr@noaa.gov. Include I.D. 091305A in the subject line of the message.

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

NMFS is proposing this rule to implement those portions of Amendment 14 to the FMP that NMFS was unable to implement in time for the

2001 through 2006 primary sablefish seasons. Amendment 14 implemented a permit stacking program for limited entry permits with sablefish endorsements. This proposed rule is based on recommendations of the Council, under the authority of the Pacific Coast Groundfish FMP and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The portions of Amendment 14 that were implemented for the 2001 primary sablefish season significantly increased safety in the fishery, allowed individual fishery participants to more fully use their existing vessel capacity, and reduced overall capacity in the primary fixed gear sablefish fishery. This proposed rule would not change any of those benefits, but would further complete the implementation of Amendment 14 by preventing excessive fleet consolidation, ensuring processor access to sablefish caught in the primary season, and maintaining the character of the fleet through owner-on-board requirements. The background and rationale for the Council's recommendations are summarized below. The discussion below also explains why NMFS will not be implementing the Council's recommendation for a hail-in requirement for vessels delivering primary season sablefish. Furthermore, it summarizes some modifications to the permit stacking program that the Council is considering for future implementation.

Further detail appears in the EA/RIR prepared by the Council for Amendment 14 and in the proposed and final rule to implement Amendment 14 for the 2001 primary sablefish season. The proposed rule for the 2001 season was published on June 8, 2001 (66 FR 30869), the final rule was published on August 7, 2001 (66 FR 41152), and a correction to the final rule was published on August 30, 2001 (66 FR 45786).

Background

For many years, sablefish harvested by the limited entry, fixed gear fleet north of 36° N. lat. has been separated into a small, year-round daily trip limit fishery and a primary season fishery (from April 1 through October 31). Annually, about 85 percent of the limited entry fixed gear sablefish allocation has been taken in the primary season fishery. Before 1997, the Council managed harvest in the primary season fishery without vessel cumulative limits by setting the season length short enough to ensure that the fishery would not exceed its quota. Capitalization in the fixed gear sablefish fleet increased
