[Docket FAA 2005-21523; Airspace Docket No. 05-AWP-07]

Establishment of Class E3 Airspace, Riverside March Field, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes a Class E3 airspace area at Riverside March Field, CA.

EFFECTIVE DATE: 0901 UTC December 22, 2005.

FOR FURTHER INFORMATION CONTACT:

Debra Trindle, Western Terminal Service Area, Airspace Specialist, AWP-520, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261, telephone (310) 725-6613.

SUPPLEMENTARY INFORMATION:**History**

On August 2, 2005, the FAA proposed to establish Class E3 airspace at Riverside March Field, CA. Class E3 airspace areas are designated as arrival extensions to a Class C surface area. Class E arrival extensions are primarily designated to provide additional controlled airspace ancillary to a surface area to protect instrument operations for the primary airport, without imposing additional communications burdens on airspace users. This action is necessary at Riverside March Field to provide controlled airspace for Category E aircraft conducting circling maneuvers in conjunction with published Standard Instrument Approach Procedures. Generally, Category E aircraft are very large and/or high performance. These aircraft require additional airspace when conducting circling maneuvers. This action will establish the Class E3 airspace at Riverside March Field.

Interested parties were invited to participate in this rule making proceeding by submitting written comments on the proposal to the FAA. No comments were received. Class E3 airspace is published in Paragraph 6003 of FAA Order 7400.9N dated September 1, 2005, and effective September 16, 2005, which is incorporated by reference in 14 CFR 71.1. The Class E Surface Area airspace designation listed in this document would be published subsequently in this Order.
