

preservation of the property's historic significance.

#### A. Relevant Laws, Executive Orders and Regulations

The NHPA is the primary historic preservation law affecting Covered Applications and outlines the historic preservation responsibilities of Federal agencies. Among these responsibilities, Federal agencies must consider the effects of their undertakings on historic properties and afford the Advisory Council on Historic Preservation (Advisory Council) a reasonable opportunity to comment on such undertakings before they occur. The NHPA and other applicable statutes, regulations, and guidance are as follows:

- *National Historic Preservation Act of 1966, as amended through 2000.*
  - *National Environmental Policy Act of 1969 (NEPA).*
  - *Archeological and Historic Preservation Act of 1974 (AHPA).*
  - *Archeological Resources Protection Act of 1979 (ARPA).*
  - *Native American Graves and Repatriation Act of 1990 (NAGPRA).*
  - *American Indian Religious Freedom Act of 1978 (AIRFA).*
  - *Executive Order 12898: Environmental Justice (1994).*
  - *Executive Order 13007: Indian Sacred Sites (1996).*
  - *12 CFR part 303.*
  - *36 CFR part 68.*
  - *36 CFR part 800.*
- This SOP supplements the Advisory Council regulations found at *36 C.F.R. part 800*.

#### B. Covered Applications

In connection with a Covered Application and prior to taking any action that would affect a proposed site, Applicants should assess whether or not their proposal involves an historic property or district and determine whether or not the property is included (or eligible for inclusion) in the National Register. Applicants should request information from their SHPO and, in the case of tribal lands, the THPO to determine whether or not their proposal may affect an historic property or district. If there is a question as to whether a proposal involves an historic property or district, the Applicant should obtain SHPO/THPO clearance before proceeding with the proposal.

SHPO/THPO consent may not be necessary in all circumstances. Examples under which such consent may be unnecessary are those applications for messenger services or in which financial institution offices would be located in supermarkets, existing shopping centers, mobile or

seasonal facilities, or properties that have been newly constructed and in which the Applicant had no ownership interest prior to or during construction. If there is a question as to the requirements for prior SHPO/THPO clearance, Applicants should consult with the appropriate FDIC Regional Office.

If the proposal involves a district, site, building, structure or object that is included in or eligible for inclusion in the National Register, the Applicant should provide the FDIC with information relevant to the proposed site. This information will facilitate the FDIC's review of the proposal, and should include:

- Plans for destruction or alteration of all or any part of the property;
- Plans for isolation from or alteration of the surrounding environment;
- Plans for the introduction of visual, audible, or atmospheric elements;
- Details regarding any restrictions or conditions affecting the long-term preservation of the property's historic significance;
- Information received from the SHPO/THPO, as applicable; and
- Such other details as appropriate for the proper evaluation of the proposal.

In order for the Applicant to participate fully in consultations, the FDIC will generally issue a letter to the appropriate SHPO/THPO specifically designating the Applicant as a "consulting party." It is the FDIC's view that all applicants should be so designated in order to facilitate the assessment and consultation process.

#### C. FDIC Determinations and Resolution of Potential Adverse Effects

If, upon review, the FDIC concurs that no historic properties are present or affected, it will provide documentation to the SHPO/THPO and, barring any objection within 30 days, will proceed with the Covered Application.

If the FDIC, in consultation with the appropriate SHPO/THPO, finds that a proposal involves a district, site, building, structure or object that is included in or eligible for inclusion in the National Register, the FDIC must consider the potential effect of the proposal on the property or district, or any property of historical, architectural, archeological, or cultural significance that is located in the area of the proposed undertaking. After considering relevant information provided by the consulting parties or otherwise available, a determination will be made as to the effect the proposal may have on the historic property or district.

In the event the FDIC determines that the proposal may have an adverse effect, the FDIC will consult with the SHPO/THPO and the Applicant to seek an agreeable resolution. Such a resolution may be executed in the form of a Memorandum of Agreement among the consulting parties. If the Advisory Council has not participated in the consultation, a copy of the proposed or executed Memorandum of Agreement and supporting documentation (as specified in the Advisory Council regulations) will be provided to the Advisory Council.

Consultation may be terminated by the SHPO/THPO or other designated consulting party if determined to be unproductive. In this case, the FDIC, Advisory Council and, as appropriate, the remaining consulting parties, may enter into a Memorandum of Agreement.

#### D. Information Requests

Public involvement through the comment period for a Covered Application (as provided for in *12 CFR part 303*) is an important part of the consultation process. Inquiries by interested parties regarding specific Covered Applications should be directed to the appropriate Regional Director of the FDIC's Division of Supervision and Consumer Protection.

Dated at Washington, DC, this 6th day of October 2005.

By order of the Board of Directors.

### Federal Open Market Committee; Domestic Policy Directive of September 20, 2005

In accordance with § 271.25 of its rules regarding availability of information (12 CFR part 271), there is set forth below the domestic policy directive issued by the Federal Open Market Committee at its meeting held on September 20, 2005.<sup>1</sup>

The Federal Open Market Committee seeks monetary and financial conditions that will foster price stability and promote sustainable growth in output. To further its long-run objectives, the Committee in the immediate future seeks conditions in reserve markets consistent with increasing the Federal funds rate to an average of around 3¾ percent.

The vote encompassed approval of the paragraph below for inclusion in the statement to be released shortly after the meeting:

The Committee perceives that, with appropriate monetary policy action, the upside and downside risks to the attainment of both sustainable growth and price stability should be kept roughly equal. With underlying inflation expected to be contained, the Committee believes that policy accommodation can be removed at a pace that is likely to be measured. Nonetheless, the Committee will respond to changes in economic prospects as needed to fulfill its obligation to maintain price stability.

**AGENCY:** Office of the Chief Acquisition Officer, GSA.

**ACTION:** Notice of request for comments regarding a renewal to an existing OMB clearance.

**SUMMARY:** Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. This information collection will ensure that small and small disadvantaged business concerns are afforded the maximum practicable opportunity to participate as subcontractors in construction, repair, and alteration or lease contracts. 1. When the contracting officer anticipates receiving individual subcontracting plans (not commercial plans).

2. When the award is based on trade-offs among cost or price and technical and/or management factors under FAR 15.101-1.

3. The acquisition is not a commercial item acquisition.

4. The acquisition offers more than minimal subcontracting opportunities.

Public comments are particularly invited on: Whether this collection of information is necessary and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected.
