The Contractor shall also be asked to screen studies and data sets. Not all studies will have FIFRA CBI information. However, OPP expects to receive many new chemicals for registration. Most of these studies will contain FIFRA CBI. This work is described in Task 3 of the contract's Statement of Work.

In accordance with the requirements of 40 CFR 2.307(h)(2), the contract with Cambridge Environmental Inc. and its subcontractor, Dynamac, prohibits use of the information for any purpose not specified in the contract; prohibits disclosure of the information to a third party without prior written approval from the Agency; and requires that each official and employee of the contractor sign an agreement to protect the information from unauthorized release and to handle it in accordance with the *FIFRA Information Security Manual*. In addition, Cambridge Environmental Inc. and its subcontractor, Dynamac, are required to submit for EPA approval a security plan under which any CBI will be secured and protected against unauthorized release or compromise. No information will be provided to Cambridge Environmental Inc. and its

II. What Action is EPA Taking?

This document reopens the public comment period established in the **Federal Register** of August 3, 2005 (70 FR 44632) (FRL-7729-2). In that document, EPA made available the human health risk assessment for ethylene oxide (ETO). ETO is a fumigant/sterilant used to sterilize medical or laboratory equipment, pharmaceuticals, and aseptic packaging, or to reduce microbial load on cosmetics, whole and ground spices or other seasoning materials, and artifacts, archival material or library objects. The Agency developed this risk assessment as part of its public process for making pesticide reregistration eligibility and tolerance reassessment decisions. Through these programs, EPA is ensuring that pesticides meet current standards under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA). The Agency received a request by a stakeholder to extend the comment period. EPA is hereby reopening the comment period, which ended on October 3, 2005; comments must now be received on or before *[insert date 30 days after date of publication in the Federal Register]*. This extension is being given based on the request to have additional time to review the extensive amount of information provided and the nature of the issues involved.
