SUPPLEMENTARY INFORMATION:

A. Background

Vendor registration in the CCR as a pre-requisite for being awarded a contract has been required in the Department of Defense since 1998, for Civilian Agencies since 2003. Since CCR’s inception, validation of registrants’ TINs with the IRS has been contemplated in order to improve data accuracy throughout the Federal procurement system. This capability, although actively pursued, was never implemented as the Internal Revenue Code (I.R.C.) restricts disclosure of TINs without the taxpayer’s consent, which due to technology at the time, would have been costly and inefficient to pursue. However, in its Fall 2004 “Report to Senate Committee on Governmental Affairs Permanent Subcommittee on Investigations,” the Federal Contractor Tax Compliance Task Force (which included the Office of Management and Budget, the Department of Treasury, the Department of Defense, the General Services Administration, the Department of Justice, and the IRS) recommended that “. . . a consent-based TIN validation under I.R.C. § 6103 should be instituted.” The capability for a near real-time/real-time, web-based solution integrating the CCR with an IRS validation is now able to be pursued due to advancements in technology. The FAR was recommended to be updated to specifically identify the validation of the TINs as a part of CCR registration.

Additionally, Subpart 4.11, Central Contractor Registration, contains language that was included when this subpart was implemented in the FAR in 2003. This outdated language required modifications of contracts by December 31, 2003, to include CCR registration requirements. As this date is past, the case removes the associated language.

The rule is proposing to amend the FAR by—

1. Modifying FAR 2.101 to indicate that the validation requirement for “registered in CCR” includes TIN matching.

2. Removing FAR 4.1103(a)(3)(i) thru 4.1103(a)(3)(ii) and a part of 4.1104 to

remove the language requiring action by December 31, 2003.

3. Adding detail to the FAR clause at 52.204-7, Central Contractor Registration, to specifically identify validation of the TIN as a part of the definition "Registered in the CCR Database," and to indicate that consent is part of that process.

4. Removing Alternate I to FAR clause 52.204-7, Central Contractor Registration.

This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

The Councils do not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., as no new requirements are being placed on the vendor community. An Initial Regulatory Flexibility Analysis has, therefore, not been performed. We invite comments from small businesses and other interested parties. The Councils will consider comments from small entities concerning the affected FAR Parts 2, 4, and 52 in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 601, et seq. (FAR case 2005-007), in correspondence.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the proposed changes

to the FAR do not impose information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, et seq.
