Request for Comments

In accordance with 49 U.S.C. 31315 and 31136(e), the FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. We will consider all comments received before the close of business on the closing date indicated earlier in the notice.

FMCSA notes that Section 4129 of the Safe, Accountable, Flexible and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA–LU) requires the agency to begin within 90 days of enactment to revise the physical qualification rules for truck and bus drivers to allow individuals who use insulin to treat their diabetes to operate commercial motor vehicles in interstate commerce. The revised rule must provide for individual assessment of diabetic drivers, and be consistent with the criteria described in section 4018 of the Transportation Equity Act for the 21st Century (TEA–21) [set out as a note to 49 U.S.C. 31305]. In response to section 4018, the Secretary transmitted to Congress a study, “A Report to Congress on the Feasibility of a Program to Qualify Individuals with Insulin-Treated Diabetes Mellitus to Operate in Interstate Commerce as Directed by the Transportation Equity Act for the 21st Century.” This report concluded that a safe and practical protocol to allow certain insulin-treated diabetic drivers to operate commercial motor vehicles (CMVs) is feasible.

There are three substantive changes in the standards required by section 4129: (1) Removal of the requirement for three years’ experience operating a commercial motor vehicle while being treated with insulin; (2) establishment of a minimum period of insulin use before being allowed to operate a commercial motor vehicle; and (3) establishing limited operating, monitoring and medical requirements that are deemed medically necessary. Section 4129(b)–(c). In addition, the section contemplates that similar revisions will be made in the current exemption program established by the September 3, 2003 (68 FR 52441), notice of final disposition. Until the agency issues a final rule, however, insulin-treated diabetic drivers must continue to apply for exemptions from FMCSA, and request renewals of such exemptions in a timely manner.

Issued on: October 13, 2005.

Annette M. Sandberg,
Administrator.
