DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission****[Docket No. AD05-17-000]****Electric Energy Market Competition Task Force; Notice Requesting Comments on Wholesale and Retail Electricity Competition**

October 13, 2005.

Overview

Section 1815 of the Energy Policy Act of 2005 requires the Electric Energy Market Competition Task Force to conduct a study of competition in wholesale and retail markets for electric energy in the United States. Over the past several years, wholesale competition has developed unevenly in many regions of the country. Moreover, fewer than 20 States have adopted retail choice programs that allow some electricity consumers to choose their retail electric generation supplier. The purpose of this study is to analyze and report to Congress on the critical elements for effective wholesale and retail competition, the status of each element, impediments to realizing each element, and suggestions for overcoming these impediments.

In recent years, some states and the Federal government have taken steps to encourage competition in the electric power industry. In the Energy Policy Act of 2005, Congress established an inter-agency task force, known as the "Electric Energy Market Competition Task Force" (the Task Force), to conduct a study and analysis of competition within the wholesale markets and retail markets for electric energy in the United States. The Task Force consists of 5 members:

(1) 1 employee of the Department of Justice, appointed by the Attorney General of the United States—J. Bruce McDonald, Deputy Assistant Attorney General, Antitrust Division; (2) 514-1157, bruce.mcdonald@usdoj.gov.

(2) 1 employee of the Federal Energy Regulatory Commission, appointed by the Chairperson of that Commission—Michael Bardee, Associate General Counsel, Office of the General Counsel—Markets, Tariffs, and Rates; (2) 502-8068, michael.bardee@ferc.gov.

(3) 1 employee of the Federal Trade Commission, appointed by the Chairperson of that Commission—Michael Wroblewski, Assistant General Counsel for Policy Studies; (2) 326-2166, mwroblewski@ftc.gov.

(4) 1 employee of the Department of Energy, appointed by the Secretary of Energy—David Meyer, Deputy Director, Division of Permitting, Siting, and Analysis, Office of Electricity Delivery and Energy Reliability; (2) 586-1411, David.Meyer@hq.doe.gov.

(5) 1 employee of the Rural Utilities Service, appointed by the Secretary of Agriculture—Karen Larsen, Office of Assistant Administrator, Electric Programs (202) 720-9545, Karen.Larsen@usda.gov.

Section 1815(c) of the Energy Policy Act of 2005 requires the Task Force to "consult with and solicit comments from any advisory entity of the task force, the States, representatives of the electric power industry, and the public." This Notice begins this process. The Task Force also will publish a draft final report for public comment, before submitting the final version to Congress as required by Section 1815(b)(2)(B).

Listed below is a series of questions for which the Task Force seeks public comment. For both wholesale and retail competition for electric power, we focus on the current state of competition and on factors that help support competition, or that otherwise may limit competition, among suppliers and buyers in regional wholesale markets and retail markets at the state level. The questions listed below are by no means exhaustive. The Task Force encourages commentors to raise any other additional factors that affect competition in wholesale and retail electric power markets. It is not necessary to respond to each question. Rather, it would be helpful for
