Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Individual ICRS

(1) Monthly Progress Reports, EPA ICR No. 1039.11, OMB Control No. 2030-0005, expires 3/31/06.

Affected entities: Entities potentially affected by this action are those holding

cost reimbursable, time and material, labor hour, or indefinite quantity/ indefinite delivery fixed rate contracts with EPA.

Abstract: Agency contractors who have cost reimbursable, time and material, labor hour, or indefinite delivery/indefinite quantity fixed rate contracts will report the technical and financial progress of the contract on a monthly basis. EPA will use this information to monitor the contractor's progress under the contract. Responses to the information collection are mandatory for contractors, and are required for the contractors to receive monthly payments. Information submitted is protected from public release in accordance with the Agency's confidentiality regulations, 40 CFR 2.201 *et seq.* An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

Burden Statement: EPA estimates that the annual hourly burden for this collection will remain the same as reported in the previous information collection because there has been no change in the information being collected and approximately the same number of contracts remain active. As such, it is estimated that each response will take approximately 36 hours. EPA anticipates that the total active affected contracts will remain approximately 324, time 12 submissions per year to yield about 3,888 annual collections. Each collection is estimated to cost \$2,592 based on a variety of contractor personnel performing individual tasks required for information gathering and submission. The anticipated 3,888 annual submissions are estimated to cost \$10,077,696 annually. Minimal operation and maintenance costs are expected for photocopying and postage.

(2) Contractor Cumulative Claim and Reconciliation, EPA ICR No. 0246.09, OMB Control No. 2030-0016, expires March 31, 2006.

Affected entities: Entities potentially affected by this action are those holding cost reimbursable contracts with EPA.

Abstract: At the completion of a cost reimbursement contract, contractors will report final costs incurred, including direct labor, materials, supplies, equipment, other direct charges, subcontracting, consultant fees, indirect costs, and fixed fee. Contractors will report this information on EPA Form 1900-10. EPA will use this information to reconcile the contractor's costs. Establishment of the final costs

and fixed fee is necessary to close out the contract. Responses to the information collection are mandatory for those contractors completing work under a cost reimbursement contract, and are required to receive final payment. Information submitted is protected from public release in accordance with the Agency's confidentiality regulation, 40 CFR 2.201 *et seq.*

Burden Statement: EPA estimates that the annual hourly burden for this collection will remain the same as reported in the previous information collection request because there has been no change in the information being collected and approximately the same number of contracts are closed out each year. EPA estimates that the annual hourly burden will be 165 hours based on the following: Each response will take approximately 40 minutes, and EPA closes out approximately 247 contracts per year. The annual dollar burden is estimated at \$5,404.36 based on a combination of contractor employees providing the information. The total cost of the contractor-provided information is estimated to be \$21.88 for the 40 minute period. Minimal operation and maintenance costs are expected for photocopying and postage.

Dated: October 12, 2005.
