ACTION: Notice of modifications to systems of records.

SUMMARY: Under the provisions of the Privacy Act of 1974 (5 U.S.C. 552a), the Environment and National Resources Division (ENRD), Department of Justice, proposes to make minor modifications to two systems of records. The first system, entitled “Appraisers, Approved Attorneys, Abstractors and Title Companies Files Database System” (Justice/ENRD–001), was last published in the Federal Register on February 23, 2000 (65 FR 8989). The modifications involve a change to the name of a Section within ENRD; and a change in the name of an Office serving as a System Manager. These minor changes do not require notification to the Office of Management and Budget or Congress. The changes will be effective on October 20, 2005.

[AA/A Order No. 011–2005]

Privacy Act of 1974; Notice of the Removal of System of Records

This system of records notice is no longer necessary because DOJ authorized Bell Atlantic to terminate the Message Detail Recording on April 16, 1999. At the present time, a Verizon-owned computer processes telephone circuit usage for the Washington Area Switch Program (WASP II). That function (including long-distance calling) has been totally taken in-house by Verizon. The only way DOJ can have access to this information would be by a valid subpoena issued against Verizon. The DOJ records have been destroyed in accordance with the Retention and Disposal schedule provided in the Federal Register notice of September 27, 1996.

Therefore, the system of records entitled “Department of Justice Call Detail Records, Justice/JMD–012” is removed from the Department’s compilation of Privacy Act systems of records effective on the date of publication of this notice in the Federal Register.

Dated: October 6, 2005.
Paul R. Corts,
Assistant Attorney General for Administration.
