

conformity with the SIP. This assessment is contained in the Final Air Quality General Conformity Determination in Appendix G-5 of the FEIS.

Pursuant to the National Historic Preservation Act of 1966, as amended, including Executive Order 11593, Protection and Enhancement of the Cultural Environment, FAA assessed whether its action in approving the proposed project would result in adverse impacts to Historic and Archaeological Resources. The results of this assessment indicated that the Preferred Alternative would result in impacts to resources that are listed in, and eligible for, listing in the National Register of Historic Places. FAA has consulted with the Virginia State Historic Preservation Office (SHPO) concerning the effects assessment and has executed a project specific Memorandum of Agreement (MOA) that identifies treatment of the affected resources. The executed MOA is contained in Appendix B of the ROD.

In accordance with the Coastal Zone Management Act of 1972, as amended, the Preferred Alternative was evaluated for consistency with the Virginia Coastal Program. FAA's evaluation determined that the Preferred Alternative is consistent with the Virginia Coastal Zone Program. The Federal Consistency Determination is contained in Appendix C-3 of the FEIS.

In accordance with Executive Order 11988, Floodplain Management and Order DOT 5650.2, Floodplain Management and Protection, FAA evaluated whether the Preferred Alternative would impact base floodplain based on a 100-year flood. The results of this assessment indicated that the Preferred Alternative would result in unavoidable impacts to the base floodplain and that all available measures to minimize harm will be included in the project design. FAA's analysis has also determined that the base floodplain encroachment with the proposed mitigation does not constitute a "significant" encroachment. Measures to mitigate base floodplain impact are included in the FEIS. The public was informed of the base floodplain encroachment through FAA's ongoing Public Involvement Program.

Exemption Decision

Under 49 U.S.C. 31315 and 31136(e), FMCSA may renew an exemption from the vision requirements in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381. This notice addresses 30 individuals who have requested renewal of their exemptions in a timely manner. FMCSA has evaluated these 30 applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are:

Thomas E. Adams
Lauren C. Allen
Tracey A. Ammons
Stanley E. Bernard
Randy B. Combs
William J. Corder
Robert L. Cross, Jr.
James D. Davis
William P. Davis

John C. Gadomski
Edward J. Genovese
Dewayne E. Harms
James W. Harris
Mark D. Kraft
David F. LeClerc
Charles L. Lovern
Jimmy R. Millage
Keith G. Reichel
Carson E. Rohrbaugh
Robert E. Sanders
Earl W. Sheets
James T. Simmons
Donald J. Snider
John A. Sortman
Jesse L. Townsend
Thomas D. Walden
James A. Welch
John M. Whetham
Edward W. Yeates, Jr.
Michael E. Yount

These exemptions are renewed subject to the following conditions: (1) That each individual have a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retain a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by FMCSA.

The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31315 and 31136(e).

Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. 31315 and 31136(e), each of the 30 applicants has satisfied the eligibility requirements for obtaining an exemption from the vision standard (64 FR 27027; 64 FR 51568; 66 FR 48504; 68 FR 54775; 64 FR 68195;

65 FR 20251; 67 FR 17102; 65 FR 45817; 65 FR 77066; 68 FR 1654; 66 FR 17743; 66 FR 33990; 66 FR 30502; 66 FR 41654; 67 FR 68719; 68 FR 2629; 68 FR 10301; 68 FR 19596; 68 FR 52811; 68 FR 61860). Each of these 30 applicants has requested timely renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the standard specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption standards. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

Comments

FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31315 and 31136(e). However, FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by November 21, 2005.

In the past FMCSA has received comments from Advocates for Highway and Auto Safety (Advocates) expressing continued opposition to FMCSA's procedures for renewing exemptions from the vision requirement in 49 CFR 391.41(b)(10). Specifically, Advocates objects to the agency's extension of the exemptions without any opportunity for public comment prior to the decision to renew, and reliance on a summary statement of evidence to make its decision to extend the exemption of each driver.

The issues raised by Advocates were addressed at length in 69 FR 51346 (August 18, 2004). FMCSA continues to find its exemption process consistent with the statutory and regulatory requirements.
