

The merchandise subject to this order is currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) at subheading 2844.20.0020. Subject merchandise may also enter under 2844.20.0030, 2844.20.0050, and 2844.40.00. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Allegations of Ministerial Errors

On September 14, 2005, Eurodif/COGEMA and the petitioner each timely filed, pursuant to 19 CFR 351.224(c)(2), an allegation that the Department made one ministerial error in its final results of review. Respondent alleges that the Department made a ministerial error in the calculation of the constructed value (CV) profit. Petitioner alleges that the Department made a ministerial error in its application of the R&D adjustment factor to cost of manufacture (COM).

We have fully considered the parties' allegations and rebuttal comments. Our full analysis is contained in the Memorandum to Joseph A. Spetrini, Acting Assistant Secretary, from Gary Taverman, Acting Deputy Assistant Secretary, concerning the Amended Final Results of the Administrative Review of the Antidumping Duty Order on Low Enriched Uranium from France (2003–2004), Ministerial Error Allegations (October 14, 2005) which is on file in the Central Records Unit (CRU), room B–099 of the main Department building, and can be accessed directly on the Web at <http://ia.ita.doc.gov>. As a result of our analysis, we have corrected our calculations of CV profit.

Amended Final Results of Review

In accordance with 19 CFR 351.224(e), we have amended the final results of this administrative review to correct for the ministerial error. As a result of this correction, Eurodif/COGEMA's weighted-average margin has been amended as stated below.

Producer	Weighted-Average Margin (Percentage)
COGEMA/Eurodif	9.75

Assessment

The Department will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries, pursuant to 19 CFR 351.212(b). The Department calculated importer-specific duty assessment rates on the basis of the ratio of the total amount of antidumping duties calculated for the examined sales

to the total entered value of the examined sales for that importer. Where the assessment rate is above *de minimis*, we will instruct CBP to assess duties on all entries of subject merchandise by that importer. The Department will not issue liquidation instructions for any entries of Eurodif/COGEMA merchandise until such time as the July 1, 2002, injunction issued by the Court of International Trade is lifted.

Cash Deposits

Furthermore, the following deposit requirements will be effective upon publication of these amended final results of this administrative review for all shipments of LEU from France entered, or withdrawn from warehouse, for consumption on or after the publication date of these amended final results, as provided by section 751(a) of the Tariff Act of 1930, as amended: (1) for companies covered by this review, the cash deposit rate will be the rate listed above; (2) for merchandise exported by producers or exporters not covered in this review but covered in a previous segment of this proceeding, the cash deposit rate will continue to be the company-specific rate published in the most recent final results in which that producer or exporter participated; (3) if the exporter is not a firm covered in this review or in any previous segment of this proceeding, but the producer is, the cash deposit rate will be that established for the producer of the merchandise in these final results of review or in the most recent final results that covered that producer; and (4) if neither the exporter nor the producer is a firm covered in this review or in any previous segment of this proceeding, the cash deposit rate will be 19.95 percent, the "All Others" rate established in the less-than-fair-value investigation. These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

Reimbursement

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred, and in the subsequent assessment of double antidumping duties.

These amended final results are issued and published in accordance

with sections 751(a) and (h) of the Act and 19 CFR 351.224.

Dated: October 14, 2005.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Reporting of Sea Turtle Incidental Take in Virginia Chesapeake Bay Pound Net Operations

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before December 20, 2005.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Mary Colligan, Assistant Regional Administrator for Protected Resources, National Marine Fisheries Service (NMFS), One Blackburn Drive, Gloucester, MA 01930 (ph. 978–281–9116, fax 978–281–9394).

SUPPLEMENTARY INFORMATION:

I. Abstract

This action would continue the reporting measure requiring all Virginia Chesapeake Bay pound net fishermen to report interactions with endangered and threatened sea turtles, found both live and dead, in their pound net operations. When a live or dead sea turtle is discovered during a pound net trip, the Virginia pound net fisherman are required to report the incidental take to NMFS and, if necessary, the appropriate

rehabilitation and stranding network. This information will be used to monitor the level of incidental take in the state-managed Virginia pound net fishery and ensure that the seasonal pound net leader restrictions (50 CFR 223.206(d)(10)) are adequately protecting listed sea turtles. Based on the number of sea turtle takes anticipated in the Virginia pound net fishery, the number of responses anticipated on an annual basis has increased from 441 to 611, and the number of burden hours has increased from 74 to 102.

II. Method of Collection

Reports may be made either by telephone or fax.

III. Data

OMB Number: 0648–0470.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Individuals or households.

Estimated Number of Respondents: 53.

Estimated Time Per Response: 10 minutes.

Estimated Total Annual Burden Hours: 102.

Estimated Total Annual Cost to Public: \$1,833.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: October 17, 2005.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[Docket No. 030602141–5264–27]

Availability of Grant Funds for Fiscal Year 2006

AGENCY: National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice; extension of solicitation period.

SUMMARY: The National Oceanic and Atmospheric Administration, National Ocean Service, publishes this notice to amend the competitive solicitation for the Ecological Forecasting (ECOFOR) program to provide an opportunity for commercial entities to submit proposals and to extend the solicitation period to provide the public more time to submit proposals.

DATES: The new deadline for the receipt of proposals is November 18, 2005, for both electronic and paper applications.

ADDRESSES: The address for submitting Proposals electronically is: <http://www.grants.gov/> (Electronic submission is strongly encouraged). Paper submissions should be sent to the attention of ECOFORE 2006, Center for Sponsored Coastal Ocean Research (N/SCI2), National Oceanic and Atmospheric Administration, 1305 East-West Highway, SSMC4, 8th Floor Station 8243, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Dr. Elizabeth Turner, 603–862–4680, elizabeth.turner@noaa.gov

SUPPLEMENTARY INFORMATION: This program was originally solicited in the **Federal Register** on June 30, 2005, as part of the June 2005 NOAA Omnibus solicitation (70 FR 37766). The ECOFORE component of that Omnibus solicitation did not include commercial organizations as eligible applicants. NOAA has determined that expanding the pool of potential applicants to include commercial organizations would enhance the program's ability to make financial assistance awards to recipients with the highest level of expertise in atmospheric forecasting. The original deadline for receipt of proposals was 3 p.m. EST, on October 25, 2005. In order to allow the expanded pool of potential applicants to submit proposals, NOAA is extending the deadline for the receipt of applications to 3 p.m. EST on November 18, 2005, for both electronic and paper applications. All other requirements for this solicitation remain the same.

Limitation of Liability

Funding for this program is contingent upon the availability of Fiscal Year 2006 appropriations. Applicants are hereby given notice that funds have not yet been appropriated for the programs listed in this notice. In no event will NOAA or the Department of Commerce be responsible for proposal preparation costs if these programs fail to receive funding or are cancelled because of other agency priorities. Publication of this announcement does not oblige NOAA to award any specific project or to obligate any available funds.

Universal Identifier

Applicants should be aware that they are required to provide a Dun and Bradstreet Data Universal Numbering System (DUNS) number during the application process. See 67 FR 66177 (October 30, 2002) for additional information. Organizations can receive a DUNS number at no cost by calling the dedicated toll-free DUNS Number request line at 1–866–705–5711 or via the internet (<http://www.dunandbradstreet.com>).

National Environmental Policy Act (NEPA)

NOAA must analyze the potential environmental impacts, as required by the National Environmental Policy Act (NEPA), for applicant projects or proposals which are seeking NOAA Federal funding opportunities. Detailed information on NOAA compliance with NEPA can be found at the following NOAA NEPA website: <http://www.nepa.noaa.gov/>, including our NOAA Administrative Order 216–6 for NEPA, http://www.nepa.noaa.gov/NAO216_6_TOC.pdf, and the Council on Environmental Quality implementation regulations, http://ceq.eh.doe.gov/nepa/regs/ceq/toc_ceq.htm. Consequently, as part of an applicant's package, and under their description of their program activities, applicants are required to provide detailed information on the activities to be conducted, locations, sites, species and habitat to be affected, possible construction activities, and any environmental concerns that may exist (e.g., the use and disposal of hazardous or toxic chemicals, introduction of non-indigenous species, impacts to endangered and threatened species, aquaculture projects, and impacts to coral reef systems). In addition to providing specific information that will serve as the basis for any required impact analyses, applicants may also be requested to assist NOAA in drafting of
