SUPPLEMENTARY INFORMATION:

Background

The General Provisions to the NSPS
in 40 CFR part 60 and the NESHAP in
40 CFR part 61 provide that a source
owner or operator may request a
determination of whether certain
intended actions constitute the
commencement of construction,
reconstruction, or modification. EPA's
written responses to these inquiries are
broadly termed applicability
determinations. See 40 CFR 60.5 and
61.06. Although the part 63 NESHAP
and section 111(d) of the Clean and Air
Act regulations contain no specific
regulatory provision that sources may
request applicability determinations,
EPA does respond to written inquiries
regarding applicability for the part 63
and section 111(d) programs. The NSPS
and NESHAP also allow sources to seek
permission to use monitoring or
recordkeeping which is different from
the promulgated requirements. See 40
CFR 60.13(i), 61.14(g), 63.8(b)(1), 63.8(f),
and 63.10(f). EPA's written responses to
these inquiries are broadly termed
alternative monitoring decisions.
Furthermore, EPA responds to written
inquiries about the broad range of NSPS
and NESHAP regulatory requirements as
they pertain to a whole source category.
These inquiries may pertain, for
example, to the type of sources to which
the regulation applies, or to the testing,
monitoring, recordkeeping or reporting
requirements contained in the

regulation. EPA's written responses to
these inquiries are broadly termed
regulatory interpretations.

EPA currently compiles EPA-issued
NSPS and NESHAP applicability
determinations, alternative monitoring
decisions, and regulatory
interpretations, and posts them on the
Applicability Determination Index (ADI)
on a quarterly basis. In addition, the
ADI contains EPA-issued responses to
requests pursuant to the stratospheric
ozone regulations, contained in 40 CFR
part 82. The ADI is an electronic index
on the Internet with more than one
thousand EPA letters and memoranda
pertaining to the applicability,
monitoring, recordkeeping, and
reporting requirements of the NSPS and
NESHAP. The letters and memoranda
may be searched by date, office of
issuance, subpart, citation, control
number or by string word searches.

Today's notice comprises a summary
of 58 such documents added to the ADI
on August 19, 2005. The subject, author,
recipient, date, header and a brief
abstract of each letter and memorandum
are listed in this notice. Complete
copies of these documents may be
obtained from the ADI through the
OECA Web site at: [http://www.epa.gov/
compliance/assistance/applicability](http://www.epa.gov/compliance/assistance/applicability).

Summary of Headers and Abstracts

The following table identifies the
database control number for each
document posted on the ADI database
system on August 19, 2005; the
applicable category; the subpart(s) of 40
CFR part 60, 61, or 63 (as applicable)
covered by the document; and the title
of the document, which provides a brief
description of the subject matter. We
have also included an abstract of each
document identified with its control
number after the table. These abstracts
