On December 10, 2004, the Coast Guard published a final rule (69 FR 71709), which amended 33 CFR 165.1321 by adding Budd Inlet, Olympia, WA as a permanent security zone. These security zones provide for the regulation of vessel traffic in the vicinity of military cargo loading facilities in the navigable waters of the United States. These security zones also exclude persons and vessels from the immediate vicinity of these facilities during military cargo loading and unloading operations. In addition, the regulation establishes requirements for all vessels to obtain permission of the COTP or the COTP's designated representative, including the Vessel

Traffic Service (VTS) aspect of Sector Seattle to enter, move within, or exit these security zones when they are enforced. Entry into these zones is prohibited unless otherwise exempted or excluded under 33 CFR 165.1321 or unless authorized by the Captain of the Port or his designee. Approval and Promulgation of Implementation Plans; Tennessee: Nashville Area Second 10-Year Maintenance Plan for the 1-Hour Ozone National Ambient Air Quality Standard**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Direct final rule.

SUMMARY: The EPA is approving a revision to the Tennessee State Implementation Plan (SIP) submitted in final form on August 10, 2005. The SIP revision provides the second 10-year maintenance plan for the Nashville (Middle Tennessee) 1-hour ozone maintenance area (Nashville Area), which is composed of the following five counties: Davidson, Rutherford, Sumner, Williamson, and Wilson. The Nashville Area is still required to fulfill obligations under the 1-hour ozone national ambient air quality standard (NAAQS), because EPA has deferred the effective date of the designation for the Nashville Area under the newer 8-hour ozone NAAQS due to participation in an Early Action Compact. EPA is approving this SIP revision because it satisfies the requirement of the Clean

Air Act (CAA) for the second 10-year maintenance plan for the Nashville Area.

In addition, in this rulemaking, EPA is providing information on its transportation conformity adequacy determination for new motor vehicle emission budgets (MVEBs) for the year 2016 that are contained in the second 10-year 1-hour ozone maintenance plan for the Nashville Area. EPA determined that the 2016 MVEBs are adequate through a previous action. EPA is also approving the 2016 MVEBs in this action.

DATES: This direct final rule is effective January 3, 2006, without further notice, unless EPA receives adverse comment by December 1, 2005. If adverse comment is received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** and inform the public that the rule will not take effect.
