

the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by January 3, 2006. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it

extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Intergovernmental relations, Nitrogen dioxide, Ozone, Volatile organic compounds.

Dated: October 17, 2005.

A. Stanley Meiburg,

Acting Regional Administrator, Region 4.

■ 40 CFR part 52 is amended as follows:

PART 52—[AMENDED]

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart RR—Tennessee

■ 2. Section 52.2220(e) is amended by adding a new entry at the end of the table for "Nashville 1-Hour Ozone Second 10-Year Maintenance Plan" to read as follows:

§ 52.2220 Identification of plan.

(e) * * *

EPA APPROVED TENNESSEE NON-REGULATORY PROVISIONS

Name of nonregulatory SIP provision	Applicable geographic or nonattainment area	State effective date	EPA approval date	Explanation
Nashville 1-Hour Ozone Second 10-Year Maintenance Plan.	Nashville	August 10, 2005	November 1, 2005 [Insert first page of publication].

[R03-OAR-2005-PA-0013; FRL-7992-2]

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; VOC and NO_x RACT Determinations for Seven Individual Sources

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is taking final action to approve revisions to the Commonwealth of Pennsylvania State Implementation Plan (SIP). The revisions were submitted by the Pennsylvania Department of Environmental Protection (PADEP) to establish and require reasonably available control technology (RACT) for seven major sources of volatile organic compounds (VOC) and nitrogen oxides (NO_x) pursuant to the Commonwealth of Pennsylvania's (Pennsylvania's or the

Commonwealth's) SIP-approved generic RACT regulations. EPA is approving these revisions in accordance with the Clean Air Act (CAA).

DATES: This rule is effective on December 1, 2005.

ADDRESSES: EPA has established a docket for this action under Regional Material in EDocket (RME) ID Number R03-OAR-2005-PA-0013. All documents in the docket are listed in the RME index at <http://docket.epa.gov/rmepub/>. Once in the system, select "quick search," then key in the appropriate RME identification number. Although listed in the electronic docket, some information is not publicly available, i.e., confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in RME or in hard copy for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the State submittal are

available at the Pennsylvania Department of Environmental Protection, Bureau of Air Quality, P.O. Box 8468, 400 Market Street, Harrisburg, Pennsylvania 17105.

FOR FURTHER INFORMATION CONTACT: Amy Caprio, (215) 814-2156, or by e-mail at caprio.amy@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On June 10, 2005 (70 FR 33850) and June 16, 2005 (70 FR 35162), EPA published a notice of proposed rulemaking (NPR) and a correction for the Commonwealth of Pennsylvania. The NPR proposed approval of formal SIP revisions submitted by Pennsylvania on January 27, 2005. The correction addresses the location of the NPR publication in the **Federal Register**. These SIP revisions consist of source-specific operating permits and/or plan approvals issued by PADEP to establish and require RACT pursuant to the Commonwealth's SIP-approved generic RACT regulations. The following table identifies the sources and the individual plan approvals (PAs) and operating permits (OPs) which are the subject of this rulemaking.

PENNSYLVANIA—VOC AND NO_x RACT DETERMINATIONS FOR INDIVIDUAL SOURCES

Source's Name	County	Plan approval (PA #) operating permit (OP #)	Source type	"Major Source" pollutant
Molded Fiber Glass, Union City	Erie	OP 25-035	Spray Booths; Molding Machines	VOC.
SKF, USA, Incorporated	York	67-02010A	Dip Tank; Spray Tanks	VOC.
Erie Forge and Steel Incorporated	Erie	OP 25-924	Furnaces; Boilers; Preheaters	NO _x .
OSRAM SYLVANIA Products, Inc.	Tioga	OP-59-0007	Gas Furnace; Dryers; Boilers; Hot Water Heaters; Forehearths.	NO _x .
Owens-Brockway Glass Container	Jefferson	OP-33-002	Refiners; Boilers; Furnaces; Forehearths	NO _x .
Texas Eastern Transmission Corporation	Indiana	32-000-230	Turbines; Generators	NO _x .
Johnstown America Corporation	Cambria	11-000-288	Solvent Cleaning; Natural Gas Combustion Sources.	VOC.

An explanation of the CAA's RACT requirements as they apply to the Commonwealth and EPA's rationale for approving these SIP revisions were provided in the NPR and will not be restated here.

Timely adverse comments were submitted on EPA's June 10, 2005 NPR. A summary of those comments and EPA's responses are provided in Section II of this document.

II. Summary of Public Comments and EPA Responses

Comment: On June 19, 2005, a citizen submitted adverse comments on EPA's DFR notice approving PADEP's VOC and NO_x RACT determinations for seven individual sources. The commenter states their opposition and objection to the rulemaking, based on the belief that too much pollution is allowed to blow east toward New Jersey from Pennsylvania. The commenter also states that the amount of pollution needs to be reduced.

Response: The rulemaking at issue is limited in scope and addresses the CAA section 182(b)(1) RACT requirements for sources located in the ozone nonattainment area classified as moderate or above. The commenter did not comment specifically on the RACT determinations for the seven individual sources and did not submit any supporting technical data or information to support that the standards for the seven individual sources do not represent RACT. Rather, the commenter makes broad statements alleging: (1) that the regulations should be more stringent in Pennsylvania than those required under the Act, and (2) that the amount of pollution needs to be reduced. These comments are not "significant comments" that to which EPA needs to respond. *Whitman v. American Trucking Ass'n.*, 531 U.S. 457, n.2 at 471 (2001) (Under the CAA, EPA need only respond to significant comments, *i.e.*, comments relevant to EPA's decision). Mere "assertions that in the opinions of

the commenter the Agency got it wrong," are not relevant comments warranting a response. *International Fabricare Inst. v. EPA*, 972 F.2d 384, 391 (D.C. Cir. 1992). As to the first comment, that the rules in Pennsylvania should be more stringent than required under the Act, EPA has no authority to mandate that a State regulate more stringently than required. Under the CAA's bifurcated scheme, the State is responsible for choosing how a source must be regulated for purposes of attaining the National Ambient Air Quality Standards (NAAQS) and EPA's role is limited in reviewing the State's choice to ensure it meets the minimum statutory requirements. Here, as is clear from the commenter's two points, the commenter is not claiming that the regulations do not meet the statutory minimum, but rather that the statute does not require enough. EPA has no authority to modify the statute, as requested by the commenter nor does EPA have authority to require the State to regulate more stringently than required by the statute. The CAA is based upon "cooperative federalism," which contemplates that each State will develop its own SIP, and that States retain a large degree of flexibility in choosing which sources to control and to what degree. EPA must approve a State's plan if it meets the "minimum requirements of the CAA. *Union Elec. Co. v. EPA*, 427 U.S. 246, 264-266 (1976).

III. Final Action

EPA is approving the revisions to the Pennsylvania SIP submitted by PADEP on January 27, 2005 to establish and require VOC and NO_x RACT for seven sources pursuant to the Commonwealth's SIP-approved generic RACT regulations.

IV. Statutory and Executive Order Reviews

A. General Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001). This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4). This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action also does not have federalism implications because it does not have substantial direct effects on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255,

August 10, 1999). This action merely approves a state rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the (CAA). This rule also is not subject to Executive Order 13045 "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the CAA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides

that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 804 exempts from section 801 the following types of rules: (1) Rules of particular applicability; (2) rules relating to agency management or personnel; and (3) rules of agency organization, procedure, or practice that do not substantially affect the rights or obligations of non-agency parties. 5 U.S.C. 804(3). EPA is not required to submit a rule report regarding today's action under section 801 because this is a rule of particular applicability establishing source-specific requirements for seven named sources.

C. Petitions for Judicial Review

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by January 3, 2006. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action.

This action approving source-specific RACT requirements for seven sources in the Commonwealth of Pennsylvania may not be challenged later in

proceedings to enforce its requirements. (See section 307(b)(2).)

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; VOC RACT Determinations for Three Individual Sources

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is taking final action to approve revisions to the Commonwealth of Pennsylvania State Implementation Plan (SIP). The revisions were submitted by the Pennsylvania Department of Environmental Protection (PADEP) to establish and require reasonably available control technology (RACT) for three major sources of volatile organic compounds (VOC)

pursuant to the Commonwealth of Pennsylvania's SIP-approved generic RACT regulations. EPA is approving these revisions in accordance with the Clean Air Act (CAA).

DATES: This rule is effective on December 1, 2005.

ADDRESSES: EPA has established a docket for this action under Regional Material in EDocket (RME) ID Number R03-OAR-2005-PA-0006. All documents in the docket are listed in the RME index at <http://docket.epa.gov/rmepub/>. Once in the system, select "quick search," then key in the appropriate RME identification number. Although listed in the electronic docket, some information is not publicly available, *i.e.*, confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in RME or in hard copy for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650

Arch Street, Philadelphia, Pennsylvania 19103. Copies of the State submittal are available at the Pennsylvania Department of Environmental Protection, Bureau of Air Quality, P.O. Box 8468, 400 Market Street, Harrisburg, Pennsylvania 17105.

FOR FURTHER INFORMATION CONTACT: LaKeshia N. Robertson (215) 814-2113, or by e-mail at robertson.lakeshia@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On April 1, 2005 (70 FR 16717), EPA published a direct final rule (DFR) for the Commonwealth of Pennsylvania. The DFR proposed approval of formal SIP revisions submitted by Pennsylvania on August 30, 2004. These SIP revisions consist of source-specific operating permits and/or plan approvals issued by PADEP to establish and require RACT pursuant to the Commonwealth's SIP-approved generic RACT regulations. The following table identifies the sources and the individual plan approvals (PAs) and operating permits (OPs) which are the subject of this rulemaking.

PENNSYLVANIA—VOC AND NO_x RACT DETERMINATIONS FOR INDIVIDUAL SOURCES

Source's name	County	Plan approval (PA #) operating permit (OP)	Source type	"Major Source" pollutant
Salem Tube, Inc	Mercer	OP 43-142 ...	Five Reheat Furnaces and Trichloroethylene Dipping Tank.	VOC.
SGL Carbon Corporation ..	Elk	OP 24-131 ...	Flame Grids, Furnaces, and Special Impregnation (resin).	VOC.
Dominion Trans, Inc	Clinton	18-00006	Four Salt Heaters, Natural Gas Boiler, Two Hot Water Heaters, Two Space Heaters, and Three Superior Boilers.	VOC.

An explanation of the CAA's RACT requirements as they apply to the Commonwealth and EPA's rationale for approving these SIP revisions were provided in the NPR and will not be restated here. In accordance with direct final rulemaking procedures, on April 1, 2005 (70 FR 16784), EPA also published a companion notice of proposed rulemaking on these SIP revisions inviting interested parties to comment on the DFR. Timely adverse comments were submitted on EPA's April 1, 2005 DFR.

On May 26, 2005 (70 FR 30377), due to receipt of the adverse comments on its approval of the PADEP's RACT determination for the three individual sources, EPA published a withdrawal of the DFR. A summary of these comments

and EPA's responses are provided in Section II of the document.

II. Summary of Public Comments and EPA Responses

Comment: On April 4, 2005, a citizen submitted adverse comments on EPA's approval of the DEP's VOC RACT determinations for three individual sources. The commenter states that the standards should be stringent enough to prevent the possibility of polluting eastward states and to protect human health and welfare.

Response: The rulemaking at issue is limited in scope and addresses the CAA section 182 (b) (1) RACT requirements for sources located in the ozone nonattainment areas. The commenter did not comment specifically on the RACT determinations for three individual sources and did not submit

any supporting technical data or information to support that the standards for three sources do not represent RACT. Rather, the commenter makes broad statements alleging that the regulations should be more stringent than those required under the Act in order to ensure adequate protection. The comment is not a "significant comment" to which EPA needs to respond. *Whitman v. American Trucking Ass'n.*, 31 U.S. 457, n.2 at 471 (2001) (Under the CAA, EPA need only respond to significant comments, *i.e.*, comments relevant to EPA's decision). Mere "assertions that in the opinions of the commenter the Agency got it wrong," are not relevant comments warranting a response. *International Fabricare Inst. v. EPA*, 972 F.2d 384, 391 (D.C. Cir. 1992). In terms of the comment, that the rules
