BILLING CODE 4140–01–M
certification, a laboratory must participate in a quarterly performance testing program plus undergo periodic, on-site inspections.

Laboratories which claim to be in the applicant stage of certification are not to be considered as meeting the minimum requirements described in the HHS Mandatory Guidelines. A laboratory must have its letter of certification from HHS/SAIMHSA (formerly: HHS/NIDA) which attests that it has met minimum standards.

In accordance with Subpart C of the Mandatory Guidelines dated April 13, 2004 (69 FR 19644), the following laboratories meet the minimum standards to conduct drug and specimen validity tests on urine specimens:

- ACL Laboratories, 8901 W. Lincoln Ave., West Allis, WI 53227, 414–328–7840 / 800–877–7016, (Formerly: Bayshore Clinical Laboratory)

*The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. DHS, with the HHS’ NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (Federal Register, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the Federal Register on April 13, 2004 (69 FR 19644). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-certified laboratories and participate in the NLCP certification maintenance program.

Anna Marsh,
Director, Office Program Services, SAMHSA.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

Agency Information Collection Activities: Submission for OMB Review; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA) has submitted the following information collection to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995. The submission describes the nature of the information collection, the categories of respondents, the estimated burden (i.e., the time, effort and resources used by respondents to respond) and cost, and includes the actual data collection instruments FEMA will use.

OMB Number: 1660–0003.

Abstract: The NFIP Biennial Report enables FEMA to meet its regulatory requirement under 44 CFR 59.22(b)(2). It also enables FEMA to be more responsive to the ongoing changes that occur in each participating community’s flood hazard area. These changes include, but are not limited to, new corporate boundaries, changes in flood hazard areas, new floodplain management measures, and changes in rate of floodplain development. It is also used to evaluate the effectiveness of the community’s floodplain management activities. The evaluation is accomplished by analyzing information provided by the community, such as the number of variances and flood plain permits granted by each community in relationship to other information contained in the Biennial Report, as well as other data available in FEMA’s Community Information System (CIS).

The Biennial Report also provides an opportunity for the National Flood Insurance Program (NFIP) participating communities to request technical assistance in implementing a floodplain management program. FEMA regional offices use this information as a means to know which communities need support and guidance. In addition, the NFIP Biennial Report is one of the tools used to assist FEMA in meeting its regulatory requirement under section 575 of the National Flood Insurance Reform Act of 2004. A “yes” answer to Items A–D in Section I of the report will provide the basis for FEMA to follow-up by contacting the community for clarification and/or elaboration regarding changes and activities occurring in a community’s flood hazard area. This information will be used in ranking and prioritizing one community’s mapping needs against all other communities in the NFIP and for determining how the limited flood hazard mapping funds are allocated for map updates.

Affected Public: State, local and Tribal governments.

Number of Respondents: 20,500 respondents.

Estimated Time per Respondent: 2.49 hours.

Estimated Total Annual Burden Hours: 11,375.

Frequency of Response: Every two years.

Comments: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs at OMB, Attention: Desk Officer for the Department of Homeland Security/FEMA, Docket Library, Room 10102, 725 17th Street, NW., Washington, DC 20503, or facsimile number (202) 395–7285. Comments must be submitted on or before December 5, 2005.

FOR FURTHER INFORMATION CONTACT:
Requests for additional information or copies of the information collection should be made to Chief, Records Management, FEMA, 500 C Street, SW., Room 316, Washington, DC 20472, facsimile number (202) 646–3347, or e-mail address FEMA-Information-Collections@dhs.gov.
