Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Pacific Islands Region Coral Reef Ecosystems Permit Form.

Form Number(s): None.

OMB Approval Number: 0648-0463.

Type of Request: Regular submission.

Burden Hours: 30.

Number of Respondents: 12.

Average Hours Per Response:

Applications, 2 hours; and appeals, 3 hours.

Needs and Uses: The regulations implementing the Fishery Management Plan (FMP) for Coral Reef Ecosystems of the Western Pacific Region include the establishment of a permit requirement for any U.S. vessel fishing for coral reef management unit species in the designated low-use Marine Protected Areas and open areas, i.e., waters seaward of the inner boundary of the U.S. Exclusive Economic Zone in the western Pacific region. The special permit is also required for at-sea transshipment of coral reef management unit species. The permit application form provides basic information about the permit applicant, vessel, fishing gear and method, target species, projected fishing effort, etc. for use by NOAA Fisheries Service and the Western Pacific Fishery Management Council in determining eligibility for permit issuance. The information is important for understanding the nature of the fishery and provides a link to participants. It also aids in the enforcement of FMP management measures.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.

SUPPLEMENTARY INFORMATION:

Background

In providing its advice and consent to the ratification of the Chemical Weapons Convention (Convention) (S. Res. 75, April 24, 1997), the Senate included several conditions. Condition 9 of Senate Resolution 75, titled "Protection of Advanced Biotechnology," provides that the President shall certify to the Congress on an annual basis that " * * the legitimate commercial activities and interests of chemical, biotechnology, and pharmaceutical firms in the United States are not being significantly harmed by the limitations of the Convention on access to, and production of, those chemicals and toxins listed in Schedule 1 * * *". On July 8, 2004, President Bush, by Executive Order 13346, delegated his authority to make the annual certification to the Secretary of Commerce.

In the years 2000 through 2004, BIS solicited comments from the public on the commercial impact of the Convention's Schedule 1 limitations and received no comments. In light of this, the President certified to Congress that firms were not significantly harmed by the Convention's Schedule 1 limitations. The Bureau of Industry and Security is collecting data to assist in determining the impact, if any, that the implementation of the Convention's requirements have had on commercial "Schedule 1" activities through calendar year 2005.

The Convention on the Prohibition of the Development, Production, Stockpiling, and Use of Chemical Weapons and Their Destruction, commonly called the Chemical Weapons Convention (CWC), is an international arms control treaty that establishes the Organization for the Prohibition of Chemical Weapons

(OPCW) to implement the verification provisions of the treaty. The CWC imposes a number of obligations on countries that have ratified the Convention (States Parties), including enactment of legislation to prohibit the production, storage, and use of chemical weapons, and establishment of a National Authority for liaison with the OPCW and other States Parties. The CWC also requires States Parties to implement a comprehensive data declaration and inspection regime to provide transparency and to verify that both the public and private sectors of States Parties are not engaged in activities prohibited under the CWC.

“Schedule 1” chemicals are those toxic chemicals and precursors identified in the Convention as posing a high risk to the object and purpose of the Convention. The “Schedule 1” chemicals are set forth in the Convention’s “Annex on Chemicals,” as well as in Supplement No. 1 to part 712 of the Chemical Weapons Convention Regulations (15 CFR 712).

The “Schedule 1” provisions of the Convention that affect commercial activities are implemented through part 712 of the Chemical Weapons Convention Regulations and parts 742 and 745 of the Export Administration Regulations, both administered by the Bureau of Industry and Security. These regulations:

(1) Prohibit the import of “Schedule 1” chemicals from States not Party to the Convention (15 CFR 712.2(a));

(2) Require annual declarations by certain facilities engaged in the production of “Schedule 1” chemicals in excess of 100 grams aggregate per calendar year (i.e., declared “Schedule 1” facilities) for purposes not prohibited by the Convention (15 CFR 712.3(a)(2) and (a)(3));

(3) Require government approval of “declared Schedule 1” facilities (15 CFR 712.3(e));

(4) Provide that “declared Schedule 1” facilities are subject to initial and routine inspection by the Organization for the Prohibition of Chemical Weapons (15 CFR 712.3(d) and 716.1(b)(1));

(5) Require 200 days advance notification of establishment of new “Schedule 1” production facilities producing greater than 100 grams aggregate of “Schedule 1” chemicals per calendar year (15 CFR 712.4);

(6) Require advance notification and annual reporting of all imports and exports of “Schedule 1” chemicals to, or from, other States Parties to the Convention (15 CFR 712.5, 742.18(a)(1) and 745.1); and

(7) Prohibit the export of “Schedule 1” chemicals to States not Party to the Convention (15 CFR 742.18(a)(1) and (b)(1)(ii)).

Discussion and Request for Comments

In order to assist in determining whether the legitimate commercial activities and interests of chemical, biotechnology, and pharmaceutical firms in the United States are being significantly harmed by the limitations of the Convention on access to, and production of, “Schedule 1” chemicals, BIS is seeking public comments on any effects that implementation of the Chemical Weapons Convention has had on commercial activities involving “Schedule 1” chemicals through calendar year 2005.

Submission of Comments

All comments must be submitted to the address indicated in this notice. The Department requires that all comments be submitted in written form.

The Department encourages interested persons who wish to comment to do so at the earliest possible time. The period for submission of comments will close on December 6, 2005. The Department will consider all comments received before the close of the comment period. Comments received after the end of the comment period will be considered if possible, but their consideration cannot be assured. The Department will not accept comments accompanied by a request that a part or all of the material be treated confidentially because of its business proprietary nature or for any other reason. The Department will return such comments and materials to the persons submitting the comments and will not consider them. Certain Circular Welded Carbon Steel Pipes and Tubes from India, Taiwan, Thailand, and Turkey, and Circular Welded Non-Alloy Steel Pipe from Brazil, Republic of Korea, Mexico, and Taiwan; Notice of Final Results of Expedited Five-Year (“Sunset”) Reviews of Antidumping Duty Orders

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On July 1, 2005, the Department of Commerce (“the Department”) initiated the second sunset reviews of the antidumping duty orders on certain circular welded carbon steel pipes and tubes from India, Taiwan, Thailand, and Turkey, and circular welded non-alloy steel pipe from Brazil, Republic of Korea (“Korea”), Mexico, and Taiwan, pursuant to section 751(c) of the Tariff Act of 1930, as amended (“the Act”). On the basis of a notice of intent to participate and adequate substantive responses filed on behalf of the domestic interested parties and inadequate response from respondent interested parties, the Department has conducted expedited sunset reviews of these antidumping duty orders. As a result of these sunset reviews, the Department finds that revocation of the antidumping duty orders would likely lead to continuation or recurrence of dumping at the level indicated in the “Final Results of Review” section of this notice.

EFFECTIVE DATE: November 8, 2005.
