FEDERAL COMMUNICATIONS COMMISSION**Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested**

October 27, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction

Act (PRA) of 1995, Public Law 104-13.

An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control number.

Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before January 9, 2006. If you anticipate that you will be submitting comments, but find it

difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: You may submit your Paperwork Reduction Act (PRA) comments by e-mail or U.S. postal mail. To submit your comments by e-mail send them to: PRA@fcc.gov. Form Nos.: FCC Forms 806, 824, 827, and 829.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions.

Number of Respondents: 1,210.

Estimated Time Per Response: 5 minutes for completion of certificate; 4 hours for inspection, and 15 minutes for recordkeeping.

Frequency of Response: Annual and every 5 year reporting requirements, and third party disclosure requirement, and recordkeeping requirement.

Total Annual Burden: 5,245 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Communications Act requires the Commission to inspect the radio installation of large cargo ships and certain passenger ships at least once a year to ensure that the radio installation is in compliance with the requirements of the Communications Act. Additionally, the Communications Act requires the inspection of small passenger ships at least once every five years. The Safety Convention (which the United States is signatory) also requires an annual inspection. However, the Safety Convention permits an Administrator to entrust the inspections to either surveyors nominated for the purpose or to organizations recognized by it. Therefore, the United States can have other parties conduct the radio inspection of vessels for compliance with the Safety Convention. The Commission allows FCC-licensed technicians to conduct these inspections. FCC-licensed technicians certify that the ship passed an inspection and issue a safety certificate. These safety certificates (FCC Forms 806, 824, 827 and 829) indicate that the vessel complies with the Communications Act and the Safety Convention. These technicians are required to provide a summary of the results of the inspection in the ship's log. In addition, the vessel's owner, operator, or ship's master must certify in the ship's log that the inspection was satisfactory. Inspection certificates issued in accordance with the Safety Convention must be posted in a prominent and accessible place on the ship. The purpose of the information is to ensure that the inspection was successful so that passengers and crewmembers of certain United States ships have access to distress communications in an emergency.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

The information collection requirements that are subject to OMB approval are the following:

A. Location Registration. Requires providers to interconnected VoIP services to obtain location information from their customers for use in the routing of 911 calls and the provision of location information to emergency answering points.
