SUPPLEMENTARY INFORMATION:

General

Under title IV, part B of the Higher Education Act of 1965, as amended (HEA), 20 U.S.C. section 1071, *et seq.*, most loans made to student and parent borrowers under the FFEL Program have variable interest rates.

The formulas for determining the interest on variable rate FFEL Program loans are established in section 427A of the HEA (20 U.S.C. 1077a).

The interest rates on variable-rate loans are determined annually and apply to the following 12-month period beginning July 1 and ending June 30.

As described below, interest rate caps apply to most FFEL Program loans.

FFEL interest rate formulas use the bond equivalent rate of 91-day Treasury bills auctioned at the final auction held before June 1 of each year plus a statutorily established add-on to determine the variable interest rate for—

- FFEL fixed-rate Stafford loans first disbursed before October 1, 1992, that have been converted to variable-rate loans;
- All FFEL Subsidized and Unsubsidized Stafford Loans first disbursed on or after October 1, 1992;
- FFEL PLUS loans first disbursed on or after July 1, 1998; and
- FFEL Consolidation Loans for which the Consolidation Loan application was received by the lender on or after November 13, 1997, and before October 1, 1998.

The bond equivalent rate of the 91-day Treasury bills auctioned on May 31, 2005, which is used to calculate the interest rates for the one-year period beginning on July 1, 2005, is 2.998 percent, which is rounded to 3.00 percent.

For FFEL PLUS loans first disbursed before July 1, 1998, interest rates are calculated based on the weekly average of a 1-year constant maturity Treasury

yield, as published by the Board of Governors of the Federal Reserve System, for the last calendar week ending on or before June 26.

The weekly average of the 1-year constant maturity Treasury yield for the last calendar week ending on or before June 27, 2005 is 3.40 percent.

Interest Rates for “Converted” Variable-rate FFEL Stafford Loans

1. Under section 427A(i)(7) of the HEA (20 U.S.C. 1077a (i)(7)) loans that were originally made with a fixed interest rate of eight percent with an increase to ten percent four years after commencement of the repayment period were converted to a variable interest rate that may not exceed ten percent: The interest rate for these loans for the period from July 1, 2005, through June 30, 2006, is 6.25 percent (3.00 percent plus 3.25 percent).

2. Loans with fixed interest rates of seven percent, eight percent, nine percent, or eight percent with an increase to ten percent four years after commencement of the repayment period, that were subject to the provisions of section 427A(i)(3) of the HEA (20 U.S.C. 1077a(i)(3)) and were converted to variable-rate loans—the interest rate may not exceed seven percent, eight percent, nine percent, or ten percent, respectively: The interest rate for the period from July 1, 2005, through June 30, 2006, is 6.10 percent (3.00 percent plus 3.1 percent).

William D. Ford Federal Direct Loan Program

AGENCY: Federal Student Aid, Department of Education.

ACTION: Notice of interest rates for the William D. Ford Federal Direct Loan Program for the period July 1, 2005 through June 30, 2006.

SUMMARY: The Chief Operating Officer for Federal Student Aid announces the interest rates for loans made under the William D. Ford Federal Direct Loan (Direct Loan) Program for the period July 1, 2005 through June 30, 2006.

FOR FURTHER INFORMATION CONTACT: Don Watson, U.S. Department of Education, room 114I2, UCP, 400 Maryland Avenue, SW., Washington, DC 20202-5400. Telephone: (202) 377-4008.

If you use a telecommunications device for the deaf (TDD), you may call the Federal Relay Service (FRS) at 1-800-877-8339.

Individuals with disabilities may obtain this document in an alternative format (e.g., Braille, large print, audiotape, or computer diskette) on request to the contact person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION: Section 455(b) of the Higher Education Act of 1965, as amended (HEA), 20 U.S.C. 1087e(b), provides formulas for determining the interest rates charged to borrowers for loans made under the Direct Loan Program including Federal Direct Stafford Loans (Direct Subsidized Loans), Federal Direct Unsubsidized Stafford Loans (Direct Unsubsidized Loans), Federal Direct PLUS Loans (Direct PLUS Loans), and Federal Direct Consolidation Loans (Direct Consolidation Loans).

The Direct Loan Program includes loans with variable interest rates and loans with fixed interest rates. Most loans made under the Direct Loan Program have variable interest rates that change each year. The variable interest rate formula that applies to a particular loan depends on the date of the first

disbursement of the loan. The variable rates are determined annually and are effective for each 12-month period beginning July 1 of one year and ending June 30 of the following year.

In the case of some Direct Consolidation Loans, the interest rate is determined by the date on which the Direct Consolidation Loan application was received. Direct Consolidation Loans for which the application was received on or after February 1, 1999 have a fixed interest rate based on the weighted average of the loans that are consolidated, rounded up to the nearest higher $\frac{1}{8}$ of one percent.

Pursuant to section 455(b) of the HEA, 20 U.S.C. § 1087e(b), the Direct Loan interest rate formulas use the bond equivalent rates of the 91-day Treasury bills at the final auction held before June 1 of each year plus a statutory add-on percentage to determine the variable interest rate for all Direct Subsidized Loans and Direct Unsubsidized Loans; Direct Consolidation Loans for which the application was received on or after July 1, 1998 and before February 1, 1999; and Direct PLUS Loans disbursed on or after July 1, 1998.

The bond equivalent rate of the 91-day Treasury bills auctioned on May 31, 2005, which is used to calculate the interest rates on these loans, is 2.998 percent, which is rounded to 3.00 percent.

In addition, pursuant to section 455(b) of the HEA, 20 U.S.C. 1087e(b), as amended by Public Law 106-554, the Consolidated Appropriations Act 2001, the interest rate for Direct PLUS Loans that were disbursed on or after July 1, 1994 and on or before July 1, 1998, is calculated based on the weekly average of a 1-year constant maturity Treasury yield, as published by the Board of Governors of the Federal Reserve System, for the last calendar week ending on or before June 26 plus a statutory add-on percentage.

The last calendar week ending on or before June 26, 2005 began on June 19, 2005 and ended on June 25, 2005. On June 27, 2005, the Board of Governors of the Federal Reserve System published the 1-year constant maturity Treasury yield average as 3.40 percent.

Below is specific information on the calculation of the interest rates for the Direct Loan Program. This information is listed in order by the date a loan was first disbursed or by the date that the Consolidation Application was received.

In addition, a summary of the interest rates that are effective for the period July 1, 2005 through June 30, 2006, is included on charts at the end of this notice. These charts are organized by
