DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Sanders and Flathead Counties, MT

AGENCY: Federal Highway Administration (FHWA); Department of Transportation.

ACTION: Rescind notice of intent to prepare an environmental impact statement.

SUMMARY: The FHWA is issuing this notice to advise the public that the

FHWA is rescinding the Notice of Intent (NOI) to prepare an environmental impact statement (EIS) for proposed improvements to the Thompson River Road (also known as Forest Highway 56), a county road located near Thompson Falls, Montana.

FOR FURTHER INFORMATION CONTACT:

Terri Thomas, Environmental Manager, Federal Highway Administration, 610 East Fifth Street, Vancouver, Washington 98661-3801. Telephone: (360) 619-7700. E-mail: Terri.Thomas@fhwa.dot.gov

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the U.S. Forest Service (USFS) and the Montana Department of Transportation (MDT), is rescinding the NOI published in the **Federal Register** (Volume 67, Number 236, page 73004-73005) on December 9, 2002, to prepare an EIS for proposed improvements to the Thompson River Road (Forest Highway 56) near Thompson Falls, Montana. The NOI is being rescinded due to social, environmental, and political issues associated with the proposed improvements. These issues include problems managing access to properties with the elimination of portions of the current dual road system, social and economic impacts on surrounding communities, and the lack of available "take" of the depleted grizzly bear population in the Cabinet-Yaak Ecosystem.

Benefits of the proposed improvements identified through public comments and preliminary studies included potential for improving fish and wildlife habitat within the Thompson River drainage. The proposed improvements included a plan to eliminate portions of the dual road network, which would potentially reduce river sediments and benefit recovering bull trout. An additional goal was to replace the high-speed logging road alignment with a lower-speed curvilinear alignment to reduce mortality of carnivores and other species resulting from vehicle collisions. However, the combined issues of property access, social and economic impacts, and potential impacts on the depleted population of grizzly bear in the Cabinet-Yaak Ecosystem were considered more significant than the combined potential benefits of the project. Therefore, the decision was made to stop the project and remove it from the Transportation Improvement Plan.

Notices of the decision were sent to all cooperating agencies on October 18, 2005. A press release was issued on October 18, 2005. Public involvement

meetings were held in Thompson Falls, Montana on October 19, 2005, and Libby, Montana on October 20, 2005, to inform the public of this decision. No significant opposition to stopping the project was received.

Comments or questions regarding this action should be addressed to the FHWA at the address and phone number provided above.

If you wish to receive confirmation that FTA received your comments, you must include a self-addressed stamped postcard. Note that all comments received will be posted without change to the Department's Docket Management System (DMS) Web site located at <http://dms.dot.gov>. This means that is your comments includes any personal identifying information, such information will be made available to users of DMS.

FOR FURTHER INFORMATION CONTACT: Linda Lasley, Assistant Chief Counsel, Legislation and Regulations Division, Office of the Chief Counsel, Federal Transit Administration, 400 Seventh Street, SW., Room 9316, Washington, DC., 20590, (202) 366-4011 or Linda.Lasley@dot.gov

SUPPLEMENTARY INFORMATION:

1. Background

On August 10, 2005, President Bush signed into law the Safe, Accountable, Flexible, Efficient Transportation Equity Act of 2005—a Legacy for Users (SAFETEA-LU), which reauthorizes Federal transit, highway, and highway safety programs through September 30, 2009. That Act amends FTA's administrative procedures contained in 49 U.S.C. 5334. The amendment specifically states: "The Administrator of the Federal Transit Administration shall follow applicable rulemaking procedures under section 553 of title 5 before the Federal Transit Administration issues a statement that imposes a binding obligation on recipients of Federal assistance under this chapter." The amendment also defines a "binding obligation" as: "a substantive policy statement, rule, or guidance document issued by the Federal Transit Administration that grants rights, imposes obligations, produces significant effects on private interests, or effects a significant change in existing policy." In accordance with the above requirement, FTA announces in this notice our policy with respect to

documents that impose bidding obligations.

A. Rulemaking

When FTA promulgates a "legislative" or legally binding rule, we will provide notice and an opportunity to comment as required by the Administrative Procedure Act (APA) and we will publish in the **Federal Register**. Rules that are designated as significant will be reviewed prior to publication in the **Federal Register** by the Office of the Secretary of Transportation and the Office of Management and Budget in accordance with Department of Transportation (DOT) policies and procedures and Executive Order 12866. In addition, when Congress authorizes FTA to establish a new program, we may issue a rule setting out the basic criteria for the new program.

Circulars, Guidance, and Policy Documents

We issue circulars, guidance documents or interpretations, and policy statements in connection with the administration of our grant programs. In certain instances, such documents grant rights to or impose obligations on grant recipients, produce significant effects on private interests or effect a significant change in existing policy. Before adopting such documents, we will provide notice and an opportunity for the public to comment. We will accomplish this by establishing a docket in the Department's Docket Management System and posting the entire document in the docket. We will then publish a notice in the **Federal Register** announcing the document's availability and the time period for providing public comment.

B. Other Information

Besides rules, circulars, policies, and guidance documents, FTA will often distribute material to assist grant recipients regarding specific topics. These documents have not and will not impose binding obligations on the public, and, therefore, will not be subject to the procedures for notice and comment set forth in section 5334(1) of Title 49. These documents will continue to be available on FTA's public Web site at <http://fta.dot.gov>.

Issued in Washington, DC, this 14th day of November 2005.

David B. Horner,

Acting Deputy Administrator.
