

report expenditures for the fiscal quarter just ended. This form is also used to provide annual budget projections from each State. The information collected in this report is used by this agency to calculate quarterly Federal grant awards and to enable this agency to submit budget requests to Congress through the Department and to enable oversight of the financial management of the programs.

Comments have been sent to the ACF Office of Grants Management, both directly and in response to an earlier **Federal Register** Notice (70 FR 29318, May 20, 2005), which provided many useful recommendations to update and improve this financial reporting form.

Whenever a financial reporting form is revised, conforming changes are also

required in the computerized financial and grant data entry system maintained by ACF and in similar financial systems maintained by each State grantee. We believe that insufficient time remains to permit all these changes to be completed to accommodate the introduction of a revised reporting form by the January 30, 2006, expiration date of the OMB approval of the existing form. In addition, the Government Accountability Office (GAO) is currently conducting a thorough review of administrative costs of both programs under Title IV-E and does not anticipate publication of its final report before spring 2006. As part of its review, GAO is including the reporting requirements of the existing quarterly report and may

include recommendations to revise this report in its findings.

For these reasons, we have determined it would not be feasible to introduce revised reporting requirements at this time, especially before we have had the opportunity to thoroughly review the upcoming GAO report and whatever relevant recommendations it may contain. Therefore, we are requesting that the expiration date of the existing forms be extended, without change, through September 30, 2008, with the understanding that a revised report will be introduced before that date as conditions warrant.
