

The Phlx has asked the Commission to waive the 30-day operative delay to allow the Exchange to promptly decrease the value of the QCE Index that underlies the QCE Options so that trading in the QCE and QCX Options may re-commence. The Commission has determined to waive the 30-day operative delay period.¹⁷ The Commission believes that waiving the 30-day operative delay period is consistent with the protection of investors and the public interest because it will allow the Exchange to re-list the QCE and QCX Options products in a more timely manner with a reduced risk of investors confusing the two products and placing mistaken orders.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.¹⁸

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, as amended, is consistent with the Act. Comments may be submitted by any of the following methods:
