If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period you must submit a final performance report as directed by 34 CFR 356.51.

4. *Performance Measures:* To evaluate the overall success of its research program, NIDRR assesses the quality of its funded projects through review of grantee performance and products. Each year, NIDRR examines a portion of its grantees to determine the extent to which grantees are conducting high-quality research and related activities that lead to high quality products. Performance measures for the Research Fellowship program include—

- The number of former pre- and post-doctoral students and fellows who received research training supported by NIDRR who are actively engaged in conducting high-quality research and demonstration projects;
- The percentage of NIDRR-supported fellows, post-doctoral trainees, and doctoral students who publish results of NIDRR-sponsored research in refereed journals;
- The percentage of grantee research and development that has appropriate study design, meets rigorous standards of scientific and/or engineering methods, and builds on and contributes to knowledge in the field; and
- The number of publications per award based on NIDRR-funded research and development activities in refereed journals.

NIDRR evaluates the overall success of individual research and development grants through review of grantee performance and products. NIDRR uses information submitted by grantees as

part of their final performance report for these reviews. Approved final performance report guidelines require grantees to submit information regarding research methods, results, outputs, and outcomes.
