Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purposes of this program are to (1) help address State-identified needs for highly qualified personnel—in special education, related services, early intervention, and regular education—to work with infants or toddlers with disabilities, or children with disabilities; and (2) ensure that those personnel have the skills and knowledge—derived from practices that have been determined through research and experience to be successful—that are needed to serve those children.

Priority: In accordance with 34 CFR 75.105(b)(2)(v), this priority is from

allowable activities specified in the statute (see sections 662(d) and 681(d) of the Individuals with Disabilities Education Act (IDEA)).

Absolute Priority: For FY 2006 this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

Center on High Quality Personnel in Inclusive Preschool Settings

Background

Research has demonstrated that preschoolers with and without disabilities can make positive developmental and school readiness gains by participating in high quality inclusive preschool programs (Odom et al., 2003). However, simply placing a child with disabilities in an inclusive setting does not guarantee these benefits. Adequate support is necessary to make inclusive preschool settings successful learning environments for all children.

Research consistently shows that teacher quality is strongly related to outcomes for students at all educational levels. Because the preschool years are so critical in fostering the development of skills needed for later school success, it is extremely important that programs serving preschoolers are staffed by personnel who are trained to implement evidence-based inclusion models and practices. To this end, support for such programs should include professional development and training activities that focus on implementing evidence-based preschool inclusion models and practices. The activities supported through this priority have the potential to improve the quality and accessibility of professional development and training activities available to prepare personnel to work in inclusive preschool settings.

Priority

The purpose of this priority is to support a Center that will increase the number of high quality early childhood personnel who serve preschoolers with disabilities in inclusive settings. The Center will accomplish this goal, in part, by developing State networks that are designed to improve the quality and accessibility of rigorous, on-going professional development and training opportunities that will prepare personnel to work in inclusive preschool settings. Specifically, the Center will: (1) Develop State networks that include, at a minimum, State and local early childhood program administrators (including part B section 619 coordinators, child care

administrators, and Head Start State Collaboration Offices), local early care and education providers, early childhood teacher trainers (IHEs and community colleges) and technical assistance providers; (2) assist each network in developing a plan for the ongoing provision of rigorous, research-based training and professional development activities in inclusive preschool settings within a specific, ambitious timeframe; and (3) coordinate the provision of research-based professional development and training opportunities for early childhood special educators, related services personnel, pre-Kindergarten teachers, Head Start teachers, and child care providers.

To meet the requirements of this priority, at a minimum, the Center must:

(a) Assist at least ten States in establishing State personnel preparation networks that focus primarily on enhancing the quality of inclusive preschool settings by ensuring increased availability of, and access to, rigorous professional development and other training opportunities for staff who work in inclusive preschool settings. Training and professional development should focus on ensuring that personnel who will work in inclusive preschool programs are trained to implement evidence-based preschool inclusion models and practices. The Center must prioritize work with States most in need;

(b) Describe in its application the process and criteria for choosing States. This process should involve consultation with the Office of Special Education Programs (OSEP), the HHS Child Care Bureau, Head Start Bureau, and other federal programs serving young children. States that are selected to work with the Center should demonstrate a commitment to developing State personnel preparation networks and plans for improving inclusive preschool training and professional development opportunities;

(c) Develop a State preschool inclusion needs assessment plan that focuses on the area(s) of training and professional development that will guide the State preschool inclusion networks;

(d) Describe in its application a proposed model for the State preschool inclusion networks. States may choose to coordinate with other early childhood networks that exist in that State;

(e) Establish a cadre of national training consultants and a system for communication and interaction among the States developing preschool inclusion networks;

(f) Describe in its application the research-based professional development and other training activities that will be promoted through the Center;

(g) Describe in its application the research-based preschool inclusion models and practices that will be promoted through the Center;

(h) Prepare and disseminate reports, documents, and training and professional development materials on "best practices" in preschool inclusion and related topics for specific audiences, such as early childhood special educators, related services personnel, pre-Kindergarten teachers, Head Start teachers, child care personnel, early childhood program administrators, trainers of early care and education personnel, and technical assistance providers. This content would also be made available for use by the Information and Technical Assistance Providers funded by the Head Start and HHS Child Care Bureaus, as well as Child Care Resource and Referral Agencies. This effort must include the development and dissemination of materials to assist local communities in increasing the number of high quality early childhood personnel who serve young children with disabilities in inclusive settings. These materials must also assist early childhood technical assistance providers in developing training materials;

(i) Maintain communication and collaboration with early childhood technical assistance providers (including those funded by OSEP, Head Start, and the HHS Child Care Bureau) and organizations (including the Council for Exceptional Children's Division of Early Childhood, the National Association for the Education of Young Children, and others);

(j) Establish, maintain, and meet at least annually in Washington DC with an advisory committee. The advisory committee should consist of representatives from State and local agencies and programs serving preschool-age children, trainers of early care and education personnel (including representatives from IHEs and community colleges), early childhood technical assistance providers, parents of young children with disabilities, early care and education providers, professional organizations, advocacy groups, researchers, and other appropriate stakeholders;

(k) Conduct an evaluation of the State preschool inclusion networks to: (1) Identify and document the most effective ways to improve the quality of training and professional development

for staff in inclusive preschool settings; and (2) identify, examine, and document the most promising strategies for increasing the number of high quality early childhood personnel who serve preschoolers with disabilities in inclusive settings;

(l) Prior to developing any new product, paper or electronic, submit a proposal to OSEP for approval describing the content and purpose of the product to a designated OSEP Project Officer and to the document review board at OSEP's Dissemination Center;

(m) Budget for a three-day Project Directors' meeting in Washington, DC during each year of the project; and

(n) Maintain a Web site that includes relevant information and documents in a format that meets government or industry-recognized standards for accessibility.

Statutory Requirements: To be considered for an award, an applicant must also satisfy the following requirements contained in section 662(e) through (f) of the IDEA:

(a) Demonstrate that the activities described in the application will address needs identified by the State or States the applicant proposes to serve and that the State or States intend to accept successful completion of the proposed personnel preparation program as meeting State personnel standards or other requirements in State law or regulation for serving children with disabilities or serving infants and toddlers with disabilities (see sections 662(e)(2)(A) and 662(f)(2) of the IDEA). Letters from the State or States that the project proposes to serve could be one method for addressing this requirement; and

(b) Demonstrate that the applicant and one or more State educational agencies—or, if appropriate, State appointed lead agencies responsible for providing early intervention services—or local educational agencies will cooperate in carrying out and monitoring the proposed project (see section 662(e)(2)(B) of IDEA).

Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (APA) (5 U.S.C. 553), the Department generally offers interested parties the opportunity to comment on a proposed priority. However, section 681(d) of IDEA makes the public comment requirements under the APA inapplicable to the priority in this notice.

Program Authority: 20 U.S.C. 1462 and 1481(d).

Applicable Regulations: (a) The Education Department General

Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99.

(b) The regulations for this program in 34 CFR part 304.
