**Title:** Notice of Arrival of Pesticides and Devices.

**Abstract:** The U.S. Customs and Border Protection (Customs) regulations at 19 CFR 12.112 require that an importer desiring to import pesticides into the United States shall, prior to the shipment's arrival, submit a Notice of Arrival of Pesticides and Devices (EPA Form 3540-1) to EPA, who will determine the disposition of the shipment. After completing the form, EPA returns the form to the importer, or his agent, who must present the form to Customs upon arrival of the shipment at the port of entry. This is necessary to ensure that EPA is notified of the arrival of pesticides and devices as required by the Federal Insecticide Fungicide and Rodenticide Act (FIFRA) section 17(c) and has the ability to examine such shipments to determine whether they are in compliance with FIFRA.

The form requires identification and address information of the importer or his agent and information on the identity and location of the imported pesticide or device shipment.

When the form is submitted to EPA regional personnel for review it is examined to determine whether the shipment should be released for entry upon arrival or alternatively whether it should be detained for examination. The responsible EPA official returns the form to the respondent with EPA instructions to Customs as to the disposition of the shipment.

Upon the arrival of the shipment, the importer presents the completed NOA to the District Director of Customs at the port of entry. Customs compares entry documents for the shipment with the Notice of Arrival and notifies the EPA Regional Office of any discrepancies which the EPA will resolve with the importer or broker. At this point the shipment may be retained for examination. If there are no discrepancies, Customs follows

instructions regarding release or detention. If EPA inspects the shipment and it appears from examination of a sample that it is adulterated, misbranded or otherwise violates the provisions of FIFRA, or is otherwise injurious to health or the environment, the pesticide or device may be refused admission into the United States.

This reporting requirement is needed to inform EPA of pesticides arriving in the customs territory of the United States and to ensure compliance with FIFRA by the responsible party importing pesticides. This reporting requirement is needed to meet direct statutory requirements of FIFRA regarding notification of EPA of such arrivals.

The information collected is used by EPA regional pesticide enforcement and compliance staff and the headquarters Office of Enforcement and Compliance Assurance and Office of Pesticide Programs. The U.S. Department of Homeland Security (Customs), the Department of Agriculture, the Food and Drug Administration, and other Federal agencies may also make use of this information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.3 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Pesticide importers.

**Estimated Number of Respondents:** 25,000.

**Frequency of Response:** 1.

*Estimated Total Annual Hour Burden:* 7500.

*Estimated Total Annual Cost:* \$379,065, includes \$0 annualized capital or O&M costs.

*Changes in the Estimates:* There is an increase of 1950 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an adjustment in the estimate of the number of respondents.

Dated: December 5, 2005.

**Title:** NESHAP for Wet-formed Fiberglass Mat Production (Renewal).

**Abstract:** The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Wet-formed Fiberglass Mat Production were proposed on May 26, 2000 (65 FR 34251), and promulgated on April 11, 2002 (67 FR 17823). These standards apply to new and existing component processes at industrial facilities that manufacture wet-formed fiberglass mat including preparation of glass fibers, formation of fibers into a fiberglass mat, saturation with urea-formaldehyde binder solution, curing and drying the binder-coated fiberglass mat, cooling the mat, and trimming, cutting, and packaging. Consistent with the NESHAP General Provisions (40 CFR part 63, subpart A), respondents are required to submit initial notifications, conduct performance tests, and submit semiannual reports. They are also required to maintain records of applicability determinations; performance test results; exceedances; periods of startup, shutdown, or malfunction; monitoring records; and all other information needed to determine compliance with the applicable standard.

An owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. Records and reports must be retained for a total of 5 years, two years on-site. The files may be maintained on microfilm, on a computer or floppy disks, on magnetic tape disks, or on microfiche. All reports are sent to the delegated state or local authority.
