

Surveillance

The Exchange represents that its surveillance procedures are adequate to monitor Exchange trading of the Shares and to detect violations of applicable rules and regulations. Exchange surveillance procedures applicable to trading in the proposed Shares will be similar to those applicable to TIRs, Portfolio Depository Receipts and Index Fund Shares currently trading on the Exchange. The Exchange currently has in place an Information Sharing Agreement with the NYMEX and the CBOT for the purpose of providing information in connection with trading in or related to futures contracts traded on the NYMEX and CBOT, respectively. The Exchange also notes that the CBOT is a member of the Intermarket Surveillance Group ("ISG"). As a result, the Exchange asserts that market surveillance information is available from the CBOT, if necessary, due to regulatory concerns that may arise in connection with the CBOT futures. In addition, the Exchange has negotiated a Memorandum of Understanding with the LME for the purpose of providing information in connection with the trading in or related to futures contracts traded on the LME.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6 of the Act³³ in general and furthers the objectives of section 6(b)(5)³⁴ in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange did not receive any written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Amex consents, the Commission will:

- (A) By order approve such proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

The Commission is considering granting accelerated approval of the proposed rule change at the end of a 15-day comment period.³⁵

proposal as one establishing or changing a due, fee, or other charge imposed by the ISE under Section 19(b)(3)(A)(ii) of the Act,⁵ and Rule 19b-4(f)(2) thereunder,⁶ which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The ISE is proposing to amend its Schedule of Fees to extend, for one year, until November 30, 2006, a pilot program that (i) caps and waives execution and comparison fees for transactions in options on the Nasdaq 100 Tracking Stock ("QQQQ") when a member transacts a certain number of QQQQ option contracts, and (ii) reduces and waives the facilitation execution and comparison fees when a member transacts a certain number of contracts through the Exchange's Facilitation Mechanism. The text of the proposed rule change, as amended, is available on the ISE's Web site (http://www.iseoptions.com/legal/proposed_rule_changes.asp), at the principal office of the ISE, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the ISE included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The ISE has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to amend the ISE Schedule of Fees to extend, for one year, until November 30, 2006, a pilot program that (i) caps and waives execution and comparison fees for transactions in

correction to Exhibit 5 does not affect the fees for transactions in options on the QQQQ but only corrects the order of the excerpted items appearing in Exhibit 5.

options on the QQQQ when a member transacts a certain number of QQQQ option contracts, and (ii) reduces and waives the facilitation execution and comparison fees when a member transacts a certain number of contracts through the Exchange's Facilitation Mechanism (when firms provide liquidity for the customers' block-sized orders).⁷

Discount on QQQQ Execution and Comparison Fees

Under the QQQQ pilot program, when a member's monthly average daily volume ("A.D.V.") in QQQQ options reaches 8,000 contracts, the member's execution fee for the next 2,000 QQQQ option contracts is reduced by \$.10 per contract.⁸ Further, when a member's monthly A.D.V. in QQQQ options reaches 10,000 contracts, the Exchange waives the entire execution fee and the comparison fee for each QQQQ option contract traded thereafter. The Exchange instituted this pilot program in November 2003 for a six month period, expiring in May 2004.⁹ The Exchange extended the pilot program in May 2004 for an additional six month period, expiring in November 2004.¹⁰ In November 2004, the Exchange extended the pilot program, this time for a one year period, which is set to expire on November 30, 2005.¹¹ The Exchange now proposes to further extend the pilot program for a one-year period, expiring on November 30, 2006. The Exchange seeks to extend this pilot program for competitive reasons. This pilot program was initiated and extended in an attempt to increase the Exchange's market share in the QQQQ option product.

Discount on Facilitation Mechanism Fees

Under the Facilitation Mechanism pilot program, the structure of the reduction and waiver of the facilitation execution fee and the comparison fee is

based on the structure of the reduction and waiver of the QQQQ execution fee and comparison fee noted above. That is, when a member's monthly A.D.V. in the Facilitation Mechanism reaches 8,000 contracts, the member's facilitation execution fee for the next 2,000 contracts transacted in the Facilitation Mechanism would be reduced by \$.10 per contract. Further, when a member's monthly A.D.V. in the Facilitation Mechanism reaches 10,000 contracts, the Exchange would waive the entire facilitation execution fee and the comparison fee for each contract transacted in the Facilitation Mechanism thereafter. As with the QQQQ incentives, the Exchange is proposing to extend this pilot program for a one-year period to encourage members to use the Facilitation Mechanism.

2. Statutory Basis

The Exchange believes that the proposed rule change, as amended, is consistent with Section 6(b)(4) of the Act,¹² which requires that an exchange have an equitable allocation of reasonable dues, fees, and other charges among its members and other persons using its facilities. In particular, the fee changes proposed hereby will enable the Exchange to continue offering competitively priced products and services.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes that the proposed rule change, as amended, does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹³ and Rule 19b-4(f)(2)¹⁴ thereunder because it changes a fee imposed by the Exchange. At any time within 60 days of the filing of such

amended proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.¹⁵

Copies of such filing also will be available for inspection and copying at the principal office of the ISE. All comments received will be posted

Form SSA-3830 is designed to assist hospitals and claimants who file on behalf of low birth weight infants in providing local field offices (FOs) and Disability Determination Services (DDSs) with medical information for determining disability of low birth weight infants. FOs use the forms as protective filing statements, and the medical information for making presumptive disability findings, which allow expedited payment to eligible claimants. DDSs use the medical information to formally determine disability and to establish the most appropriate continuing disability review diaries. The respondents are hospitals that have information identifying low birth weight babies and medical conditions those babies may have. We estimate it will take 10 to 15 minutes to complete the form. Below, we use the higher number for our public burden computation.
