6. National Employment Activity and Disability Survey—0960-0666

Background

The Ticket to Work (TTW) program was established by the Ticket to Work and Work Incentives Improvement Act of 1999. The program will provide eligible Social Security Disability Insurance (SSDI) and SSI disability beneficiaries with a Ticket, which can be used to obtain vocational rehabilitation (VR) or employment services through participating providers, called Employment Networks (ENs). The goal of the TTW program is to assist participants in returning to work at a level above the Substantial Gainful Activity (SGA) level. The program is expected to increase beneficiary demand for employment-related services and activities. It is also expected to increase the number and

diversity of providers in response to the less restrictive participation requirements and increased consumer demand for services.

The National Employment Activity and Disability Survey

The National Employment Activity and Disability Survey will collect data on the work-related activities of SSI and SSDI beneficiaries as the TTW program, and other initiatives designed to improve beneficiary employment outcomes, are implemented. The TTW Survey is specifically designed to be a significant resource for the formal evaluation of TTW, but SSA anticipates that the survey will provide useful information for a variety of evaluation and policy analysis purposes, especially related to current efforts that attempt to improve return to work. The survey questionnaire focuses on information about beneficiaries and their work-related activities that cannot be obtained from SSA's administrative records. The survey will provide information about: (1) Beneficiaries who assign their Tickets to ENs, and their experience in the program; (2) beneficiaries who do not assign their Tickets, and the reasons why they do not, including involuntary non-participants; (3) the employment outcomes of Ticket users and other beneficiaries; and (4) the use of employment services by Ticket users and other beneficiaries. The respondents will be selected from SSI and SSDI disabled beneficiaries who meet the Ticket to Work program eligibility requirements.

Type of Request: Extension of an OMB-approved information collection.
Number of Respondents: 5,538.
Frequency of Response: 1.
Average Burden Per Response: 47 minutes.

Estimated Annual Burden: 4,338 hours.

II. The information collections listed below have been submitted to OMB for clearance. Your comments on the information collections would be most useful if received by OMB and SSA within 30 days from the date of this publication. You can obtain a copy of the OMB clearance packages by calling the SSA Reports Clearance Officer at 410-965-0454, or by writing to the address listed above.

1. Private Printing and Modification of Prescribed Applications and Other Forms—20 CFR 422.527-0960-0663. This regulation mandates that non-government persons or organizations who wish to reproduce, duplicate, or privately print any application or other form owned by SSA must receive written authorization from the Agency

to do so. The respondents are private persons or groups who wish to reproduce, duplicate, or privately print an SSA application or form.

Type of Request: Extension of an OMB-approved information collection.

2. Public Information Campaign—0960-0544. To track media usage of these materials, SSA conducts the Public Information Campaign, a bi-annual solicitation of feedback from the target public media sources via business reply cards. The respondents are public broadcasting systems who are sent information about various SSA programs to disseminate to the public. **Note:** Please note that this collection was accidentally allowed to expire by OMB.
