[OMB Control No. 9000-0145]

Federal Acquisition Regulation; Information Collection; Use of Data Universal Numbering System (DUNS) as Primary Contractor Identification

AGENCIES: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for public comments regarding an extension to an existing OMB clearance (9000-0145).

Chapter 35), the Federal Acquisition Regulation (FAR) Secretariat will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning use of data universal numbering system (DUNS) as primary contractor identification. This OMB clearance expires on April 30, 2006.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

A. Purpose

The Data Universal Numbering System (DUNS) number is the nine-digit identification number assigned by Dun and Bradstreet Information Services to an establishment. The Government uses the DUNS number to identify contractors in reporting to the Federal Procurement Data System (FPDS). The FPDS provides a comprehensive mechanism for assembling, organizing, and presenting contract placement data for the Federal Government. Federal agencies report data on all contracts in excess of the micro-purchase threshold to the Federal Procurement Data Center which collects, processes, and disseminates official statistical data on Federal contracting. Contracting officers insert the Federal Acquisition Regulation (FAR) provision at 52.204-6, Data Universal Numbering System (DUNS) Number, in solicitations they expect will result in contracts in excess of the micro-purchase threshold and do not contain FAR 52.204-7, Central Contractor Registration. This provision requires offerors to submit their DUNS number with their offer. If the offeror does not have a DUNS number, the provision provides instructions on obtaining one.
