FOR FURTHER INFORMATION CONTACT: Kristin K'eit, (907) 586-7423.

SUPPLEMENTARY INFORMATION: On behalf of the Native Village of Eyak, in accordance with the Agreement and Consent Decree in the Exxon Valdez Case (Case No. A89-095 CI [consolidated] and Case No. A92-175 CI [Ex. A]) and as mandated by the State of Alaska in the 1993, Alyeska settlement (HB 165), the BIA proposes to design and build a deep-water port and oil spill response facility at Shepard Point near Cordova, Alaska.

The BIA's preferred alternative is Alternative 4, a new oil spill response facility at Shepard Point near Cordova, Alaska. The proposed facility would consist of (1) a dedicated deepwater port, (2) additional staging and storage area; and (3) an access road to the Cordova road system. The facility would allow all-tide transfer of out-of-region supplies such as boom, skimmer, sorbents, anchors, tools, and personal protective equipment from the all-weather airport at Cordova to a wider variety of response vessels than can currently use Cordova's port. The NEPA document is required due to the potential effects of the project.
