Background

determined on June 6, 2005, that it would conduct a full review.³ Notice of the scheduling of the Commission's review and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on June 30, 2005.⁴ The hearing was held in Washington, DC, on October 11, 2005, and all persons who requested the opportunity were permitted to appear in person or by counsel.

SUPPLEMENTARY INFORMATION: This investigation under section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), was instituted by the Commission on June 3, 2004, based on a complaint filed by Trend Micro Inc. ("Trend Micro") of Cupertino, California. 69 FR 32044–45 (June 8, 2004). The complaint alleged violations of section 337 in the importation into the United States, the sale for importation into the United States, or the sale within the United States after importation of certain systems for detecting and removing computer viruses or worms, components thereof, and products containing same by reason of infringement of claims 1–22 of U.S. Patent No. 5,623,600 ("the '600 patent'"). The notice of investigation named Fortinet of Sunnyvale, California as the sole respondent.

On May 9, 2005, the ALJ issued his final initial determination ("ID") finding a violation of section 337 based on his findings that claims 4, 7, 8, and 11–15 of the '600 patent are not invalid or unenforceable, and are infringed by respondent's products. The ALJ also found that claims 1 and 3 of the '600 patent are invalid as anticipated by prior art and that a domestic industry exists. He also issued a recommended determination on remedy and bonding.

On July 8, 2005, the Commission issued notice that it had determined not to review the ALJ's final ID on violation, thereby finding a violation of Section 337. 70 FR 40731 (July 14, 2005). The Commission also requested briefing on the issues of remedy, the public interest, and bonding. Id. Submissions on the issues of remedy, the public interest, and bonding were filed on July 18, 2005, by all parties. All parties filed response submissions on July 25, 2005. On August 8, 2005, the Commission terminated the investigation, and issued a limited exclusion order and a cease and desist order covering respondent's systems for detecting and removing viruses or worms, components thereof, and products containing same covered by claims 4, 7, 8, and 11–15 of the '600 patent.
