#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Institute of Museum and Library Services is an independent Federal grant-making agency authorized by the Museum and Library Services Act, 20 U.S.C. Section 9101 *et seq.* The IMLS provides a variety of grant programs to assist the nation's museums and libraries in improving their operations and enhancing their services to the public. Museums and libraries of all sizes and types may receive support from IMLS programs. The Museum and Library Services Act of 2003 includes a strong emphasis on supporting library services through the development of a strong library workforce. This solicitation is a web-based survey to collect information to assist IMLS understand library and information science (LIS) workforce needs, including supply and demand, factors that affect them, and existing workforce projections.

##### II. Current Action

The core duties of the Institute of Museum and Library Services, as stated in its strategic plan, are to promote excellence in library services and to promote access to museum and library services for a diverse public. This goal will be accomplished in part by promoting improved workforce planning including strategies for recruitment and retention of workers. IMLS is developing specific plans to collect information from libraries, librarians and other information professionals. Information to be collected from libraries includes current and projected employment in terms of numbers of positions (filled and vacant), functional specialization, educational requirements, skill/competency requirements, salaries and benefits, demographics, annual budget/expenditures, constituency or market size. Information to be collected from LIS professionals includes current employment, career path and career progression, professional association/union membership and demographics. These information collections will be based on geographic location (state and locality), type of employing organization and functionality of the work. A great deal of information has been collected on the LIS workforce, e.g. by BLS, NCES and professional societies. The information IMLS collects should build on, but not duplicate, existing or ongoing collections.

##### SUPPLEMENTARY INFORMATION:

##### I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is considering the issuance of a license amendment to the Department of Health and Human Services, Food and Drug Administration, Center for Devices and Radiological Health (FDA/CDRH) for Materials License No. 19-07538-01, to authorize release of its facility at 12709 Twinbrook Parkway, Rockville, Maryland for unrestricted use. NRC has prepared an Environmental Assessment (EA) in support of this proposed action in accordance with the requirements of 10 CFR Part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate.
