Title: Role of communities in the development of stewardship contracting projects.

OMB Number: 0596-New.

Expiration Date of Approval: N/A.

Type of Request: New.

Abstract: Section 323 of Public Law 108-7 (16 U.S.C. 2104 Note) requires the Forest Service and Bureau of Land Management to report to Congress annually on the role of local communities in the development of agreement or contract plans through stewardship contracting. To meet that requirement the Forest Service plans to conduct surveys to gather the necessary information for use by both Forest Service and Bureau of Land Management. The survey will provide information regarding the nature of the local community involved in developing agreement or contract plans, the nature of roles played by the entities involved in developing agreement or contract plans, the benefits to the community and agency by being involved in planning and development of contract plans, and the usefulness of stewardship contracting in helping meet the needs of local communities.

The Pinchot Institute for Conservation and its sub-contractors will collect information through an annual phone survey. The survey will query federal employees, employees of for-profit and not-for-profit institutions, employees of state and local agencies, and individual citizens who have been involved in stewardship contracting projects about their role in the development of agreement or contract plans.

The information collected through the survey will be analyzed by the Pinchot Institute for Conservation and its sub-contractors and used to help develop the Forest Service and Bureau of Land Management report to Congress pursuant to Section 323 of Public Law 108-7. Without the information from this annual collection of data, the Forest Service and Bureau of Land Management will not be able to provide the required annual report to Congress on the role of communities in development of agreement or contract plans under stewardship contracting.

ACTION: Notice of New Fee Site.

Construction of the site was completed in 2005. This new OHV trailhead replaces an existing trailhead that was moved a quarter mile to protect environmental and archaeological sites. The new trailhead will facilitate continued OHV use on the existing 16 mile loop designated trail system. Funds collected will be used for the continued safe operation and maintenance of the OHV trail system and trailhead.

DATES: Town Creek—Roberts Bike Camp OHV Special Recreation Permit fee would be collected immediately once authorization is approved.

ADDRESSES: Forest Supervisor, Chattahoochee-Oconee National Forests, 1755 Cleveland Highway, Gainesville, GA 30501.

FOR FURTHER INFORMATION CONTACT: Carolyn Hoffmann, Recreation Fee Coordinator, 770–297–3030.

SUPPLEMENTARY INFORMATION: The Federal Recreation Lands Enhancement Act (Title VII, Pub. L. 108–447) directed the Secretary of Agriculture to publish a six month advance notice in the **Federal Register** whenever new recreation fee areas are established. The Chattahoochee-Oconee National Forests' Oconee Ranger District has only one designated OHV trail with two designated trailheads accessing a 16 mile loop trail. A \$5 daily special

recreation permit fee is required for each operator accessing the trail system. Recreation surveys and public involvement have shown that people desire to have this sort of recreation experience on the Oconee Ranger District. Current fee collections and user comments indicate that the current fee is both reasonable and acceptable for this sort of unique recreation experience. Town Creek—Roberts Bike Camp OHV trailhead and trail will offer a 16 mile loop trail experience and accessible facilities such as a vault toilet, loading ramp, designated parking, picnic tables, trash receptacles, bulletin board, and an interpretive board. Reservations are not accepted, use is on a first come, first served basis.
