

Federal Register notice announcing the Agency's receipt of the requests to terminate certain uses of azinphos-methyl.

IV. Use Termination Order

Pursuant to FIFRA section 6(f), EPA is issuing this cancellation order as a follow-up to the Agency's August 2003, approval of the requested amendments to terminate the Group 1 uses of azinphos-methyl from the product registrations. As noted above, new labels were approved without the Group 1 uses. Accordingly, this order incorporates the Agency's approval of the amended labels terminating the affected uses.

Any distribution, sale, or use of existing stocks of the affected products in a manner inconsistent with any of the Provisions for Disposition of Existing Stocks set forth below in Unit VI. will be considered a violation of FIFRA.

V. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request. This order reflects the Agency's August 2003, approval of that request.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The cancellation order issued in this Notice includes the following existing stocks provision.

All sale, distribution and use of existing stocks by registrants of manufacturing-use products bearing these uses was prohibited 90-calendar days after receipt of EPA approved revised labels reflecting the use deletions. All sale and distribution of existing stocks of end-use products bearing these uses by registrants was prohibited 90-calendar days after receipt of EPA approved revised labels reflecting the use deletions. Use of existing stocks of end use products bearing these uses is not prohibited provided the users follow the labeling instructions.

Mancozeb Reregistration Eligibility Decision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's Reregistration Eligibility Decision (RED) for the pesticide mancozeb. The Agency's risk assessments and other related documents are also available in the mancozeb Docket. Mancozeb is a member of the ethylene bisdithiocarbamate (EBDC) group of fungicides, which also includes the related fungicides maneb and metiram. Mancozeb is used as a broad spectrum fungicide on a variety of agricultural crops, ornamentals, and turf. As a part of this process, the Agency announced the availability of the EBDCs preliminary risk assessments and supporting documents for a 90-day comment period and requested risk reduction options under docket identification (ID) number EPA-HQ-OPP;2004-0078. Through these programs, EPA is ensuring that all pesticides meet current health and safety standards.

FOR FURTHER INFORMATION CONTACT: Christina Scheltema, Special Review and Reregistration Division (7508C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-2201; fax number: (703) 308-8005; e-mail address: scheltema.christina@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical

industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket ID number OPP-2005-0176. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although, a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

EDOCKET, epa's electronic public docket and comment system was replaced on November 25, 2005, by an enhanced Federal-wide electronic docketmanagement and comment system located at <http://www.regulations.gov/>. Follow the on-line instructions

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search" then key in the appropriate docket ID number.

II. Background

A. What Action is the Agency Taking?

Under section 4 of the Federal Insecticide, Fungicide, and Rodenticide

Act (FIFRA), EPA is reevaluating existing pesticides to ensure that they meet current scientific and regulatory standards. EPA has completed a Reregistration Eligibility Decision (RED) for the pesticide, mancozeb under section 4(g)(2)(A) of FIFRA. Mancozeb is an EBDC fungicide used on a variety of agricultural crops, ornamentals, and turf. EPA has determined that the data base to support reregistration is substantially complete and that products containing mancozeb are eligible for reregistration depending on their specific uses, provided that the risk mitigation measures outlined in the RED are adopted, and labels are amended to reflect these measures. Registrants have requested cancellations and/or deletions of mancozeb use as a foliar treatment for cotton, use in pineapple propagation, and use on residential lawns, athletic fields, and pachysandra; these uses are not eligible for reregistration. Upon submission of any required product specific data under section 4(g)(2)(B) and any necessary changes to the registration and labeling (either to address concerns identified in the RED or as a result of product specific data), EPA will make a final reregistration decision under section 4(g)(2)(C) for products containing mancozeb.

EPA must review tolerances and tolerance exemptions that were in effect when the Food Quality Protection Act (FQPA) was enacted in August 1996, to ensure that these existing pesticide residue limits for food and feed commodities meet the safety standard established by the new law. Tolerances are considered reassessed once the safety finding has been made or a revocation occurs. EPA has reviewed and made the requisite safety finding for the mancozeb tolerances included in this notice.

EPA is applying the principles of public participation to all pesticides undergoing reregistration and tolerance reassessment. The Agency's Pesticide Tolerance Reassessment and Reregistration; Public Participation Process, published in the **Federal Register** on May 14, 2004, (69 FR 26819) (FRL-7357-9) explains that in conducting these programs, EPA is tailoring its public participation process to be commensurate with the level of risk, extent of use, complexity of issues, and degree of public concern associated with each pesticide. Due to its uses, risks, and other factors, mancozeb was reviewed through the modified 4-Phase public participation process. Through this process, EPA worked extensively with stakeholders and the public to

reach the regulatory decisions for mancozeb.

The reregistration program is being conducted under Congressionally mandated time frames, and EPA recognizes the need both to make timely decisions and to involve the public. Opportunities for public comment were offered as this decision was being developed. Additionally, all issues related to this pesticide were resolved through consultations with stakeholders. The Agency, therefore, is issuing the mancozeb RED without a comment period.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA as amended directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Section 408(q) of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a(q), requires EPA to review tolerances and exemptions for pesticide residues in effect as of August 2, 1996, to determine whether the tolerance or exemption meets the requirements of section 408(b)(2) or (c)(2) of FFDCA. This review is to be completed by August 3, 2006.

Maneb Reregistration Eligibility Decision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's Reregistration Eligibility Decision (RED) for the pesticide maneb. The Agency's risk assessments and other related

documents also are available in the maneb Docket. Maneb is registered for use on a wide variety of food/feed crops, including fruit and nut crops, vegetable crops, field and forage crops, grapes, field crop seeds, and others; ornamental plants in nurseries and greenhouses; and sod farms. Maneb is a member of the ethylene bisdithiocarbamate (EBDC) group of fungicides, which also includes the related active ingredients mancozeb and metiram. Maneb and the two other fungicides share the common metabolite/degradate ethylene thiourea (ETU), which has been considered in the maneb RED. EPA has reviewed maneb through the public participation process that the Agency uses to involve the public in developing pesticide reregistration and tolerance reassessment decisions. As a part of this process, the Agency announced the availability of the EBDCs preliminary risk assessments and supporting documents for a 90-day comment period and requested risk reduction options under docket ID number OPP-2004-0078. Through these programs, EPA is ensuring that all pesticides meet current health and safety standards.
