BILLING CODE 3410-11-M

DEPARTMENT OF AGRICULTURE**Natural Resources Conservation Service****LA-05 Floating Marsh Creation Demonstration Project, Terrebonne Parish, LA**

AGENCY: Natural Resources Conservation Service, Agriculture.

ACTION: Notice of finding of no significant impact.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR part 1500); and the Natural Resources Conservation Service Guidelines (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Floating Marsh Creation Demonstration Project (LA-05), Terrebonne Parish, Louisiana.

FOR FURTHER INFORMATION, CONTACT:

Donald W. Gohmert, State Conservationist, Natural Resources Conservation Service, 3737 Government Street, Alexandria, Louisiana 71302; telephone (318) 473-7751.

SUPPLEMENTARY INFORMATION: The environmental assessment of the federally assisted action indicates that the demonstration project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Donald W. Gohmert, State Conservationist, has determined that preparation and review of an environmental impact statement is not needed for this project.

The demonstration project will develop and test unique, previously untested technologies for creating floating marsh in order to restore significantly deteriorated wetland areas that historically supported thick-mat maidencane (*Panicum hemitomom*) floating marsh, and other open freshwater areas. The development of appropriate technology through this plan has potential use throughout fresh and intermediate zones of coastal Louisiana, particularly in Terrebonne Basin where traditional techniques for re-establishing attached marshes are not applicable or feasible.

The recommended project plan consists of two phases: The first phase
