Public Law 104-13, the Paperwork Reduction Act of 1995, effective October 1, 1995. The information collection packages that may be included in this notice are for new information collections, approval of existing information collections, revisions to OMB-approved information collections, and extensions (no change) of OMB-approved information collections.

SSA is soliciting comments on the accuracy of the agency's burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility, and clarity; and on ways to minimize burden on respondents, including the use of automated collection techniques or other forms of information technology. Written comments and recommendations regarding the information collection(s) should be submitted to the OMB Desk Officer and the SSA Reports Clearance Officer. The information can be mailed and/or faxed to the individuals at the addresses and fax numbers listed below:

2. Homeless Outreach Project and Evaluation (HOPE)—0960–0704. *Background.* Congress passed the McKinney Act of 1987 in recognition of and in an effort to address situations and conditions facing people without permanent shelter. The Act funded 15 emergency services and nine individual titles to authorize the provision of specific programs by Federal agencies. The Act also established the Interagency Council on Homelessness (ICH) composed of leaders from 15 Federal agencies who are in charge of coordinating efforts to assist people who are homeless. During the past decade, SSA and other ICH agencies have compiled important data about people who are homeless and have carried out evaluations of services which have generated evidence about “best” or “promising practices” well suited to combating homelessness.

In fiscal year 2003, President George W. Bush announced an initiative to end chronic homelessness in 10 years. As a result, SSA developed Project HOPE

and in May 2004 awarded 34 Cooperative Agreements to organizations which provide outreach, support services and benefit application assistance to the chronically homeless and other underserved populations. An additional 7 cooperative agreements were awarded in November 2004 for a total of 41. The goal of Project HOPE is to improve both the quantity and quality of applications for disability benefits. Project HOPE gives focused support to Cooperative (co-op) awardees via a training program and ongoing technical assistance.

Evaluation of Project HOPE. SSA uses the project HOPE evaluation to determine the effectiveness and the efficiency of the program. To obtain the information needed for the evaluation, SSA has developed an interactive Web site that is used by co-op awardees to input client and program data, and by SSA to communicate project-wide announcements to the awardees. The respondents are HOPE grantees/non-profit social services organizations serving people who are homeless and disabled.

Type of Request: Extension of an OMB-approved information collection.

3. Employee Verification Service (EVS)—0960–0669. *Background.* Under Internal Revenue Service regulations, employers are required to provide wage and tax data to SSA using form W–2, Wage and Tax Statement or its electronic equivalent. As part of this process, the employer must furnish the employee’s name and Social Security Number (SSN). This information must

match SSA’s records in order for the employee’s wage and tax data to be properly posted to the earnings record. Information that is incorrectly provided to the Agency must be corrected by the employer using an amended reporting form, which is a labor-intensive and time-consuming process for both SSA and the employer. Therefore, to help ensure that employers provide accurate name and SSN information on their wage reports, SSA offers the EVS service whereby employers can verify, via magnetic tape, cartridge, diskette, paper, and telephone, if the reported name and SSN of their employee matches SSA’s records.

EVS Collection. SSA will use the information collected through the EVS to verify that the employee name and SSN information, provided by employers, matches SSA records. SSA will respond to the employer informing them only of matches and mismatches of submitted information. Respondents are employers who provide wage and tax data to SSA who elect to use EVS

to verify their employees' names and SSNs.
