

mitigation language for the MOA and that the parties would meet in August to review a revised MOA, such a meeting was never held. In early August, the FS chose to sign a slightly revised MOA, secured the signature of UA, and then, in a letter dated August 8, 2005, asked the other consulting parties to sign the MOA. Arguing that FS had violated an agreed upon approach, the tribes refused to sign the MOA. The ACHP provided the FS some recommended language for the MOA that included the use of a laminated wood pole, consultation protocols for projects at Mount Graham, and a management plan for the mountain, but those recommendations were not accepted.

As stated above, on a letter received by the ACHP in December 5, the FS notified the ACHP of its decision to terminate consultation and seek the formal comments from the ACHP.

Again, the ACHP seeks public input on those formal comments that ACHP will send to FS.

Landowners provide signatures to verify that they have covered a specified cost of the practice.

The landowner also signs a statement agreeing to refund all or part of the cost-share assistance received if, before the specified practice lifespan, the landowner destroys the approved practice, or voluntarily relinquishes control over the land and the new owner or operator of the land does not agree in writing to maintain the practice properly for the remainder of the lifespan.

They indicate the type of entity (e.g. whether an individual, irrevocable trust, revocable trust, corporation, limited partnership, general partnership, joint venture, estate, or other).
