

necessary information in one location and ensure their claims are completed sufficiently the first time. The online system will also increase TSA's efficiency in processing claims.

On the Supplemental Information form, claimants are asked to provide additional claim information including: (1) E-mail address, (2) location of incident within the airport, (3) airport, (4) complete travel itinerary, (5) whether baggage was delayed by airline (6) why they believe TSA was negligent, (7) whether they used a third-party baggage service, (8) whether they were traveling under military orders, and (9) whether they submitted claims with the airlines or insurance.

If TSA determines payment is warranted, TSA sends the claimant a third form where TSA requests: (1) Claimant signature, (2) banking information (routing and accounting numbers), and (3) Social Security number (required by the U.S. Treasury for all Government payments to the public pursuant to 31 U.S.C. 3325).

Under the current system of claims submitted by mail or fax, TSA estimates there will be approximately 28,800 respondents on an annual basis, for a total annual hour burden of 19,200 hours. Once the online system is operational, TSA estimates that out of the 28,800 annual respondents, approximately 70 percent, or 20,160, will submit claims electronically, for a total annual hour burden of 5,040 hours; and that approximately 30 percent, or 8,640, will continue to submit claims by mail or fax, for a total annual hour burden of 2,160 hours.

Use of Results

TSA will use all data collected from claimants to investigate and analyze tort claims against the agency to determine alleged TSA liability and to reimburse claimants when claims are approved. In some cases, TSA may use the information to identify victims of theft or to aid any criminal investigations into property theft.

Issued in Arlington, Virginia, on January 5, 2006.

Lisa S. Dean,

Privacy Officer.

BILLING CODE 4910-62-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5042-N-01]

Notice of Proposed Information Collection: Evaluating Outcomes of HUD's Healthy Homes Grants

AGENCY: Office of Healthy Homes and Lead Hazard Control, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement concerning an evaluation of grants made under the Healthy Homes Initiative (HHI) funded by HUD will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

DATES: *Comments Due Date:* March 13, 2006.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and should be sent to Shelby Glover, Reports Liaison Officer, Office of Healthy Homes and Lead Hazard Control, Department of Housing and Urban Development, 451 7th Street, SW., Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT: Peter J. Ashley, Office of Healthy Homes and Lead Hazard Control, Department of Housing and Urban Development, 451 7th Street, SW., Washington, DC 20410, telephone number (202) 708-0614, extension 7595 (this is not a toll-free number) for copies of the proposed questionnaire and related information.

SUPPLEMENTARY INFORMATION: The Department is submitting the proposed information collection to OMB for review as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information

technology (e.g., permitting electronic submission of responses).

This Notice also lists the following information:

Title of Proposal: Evaluating Outcomes of HUD's Healthy Homes Grants.

OMB Control Number: To be assigned.

Need for the Information and Proposed Use: The Healthy Homes Initiative, initiated in 1999, encourages a holistic approach to efficiently reducing multiple health and safety hazards in homes, including asthma triggers such as mold and other allergens, pests, lead, carbon monoxide and other indoor contaminants, and injury hazards. To date, the Department has awarded 63 grants in the categories of demonstration, education and outreach, and technical studies. HUD is interested in evaluating the outcomes of these grants to identify and highlight effective practices and significant research findings and to assess progress in achieving HHI program objectives.

HUD will ask grant recipients to respond to a questionnaire, administered by telephone, on: (a) The range of interventions and activities that have been conducted under demonstration and education and outreach grants, the effectiveness of these actions, and factors that determine effectiveness; (b) the major research findings from technical studies and demonstration grants, and information on how these findings are being disseminated and applied; (c) the extent to which grants have resulted in local infrastructure being developed to continue healthy-housing related activities after completion of the grant; and (d) results of healthy-housing activities supported through interagency agreements with other federal agencies. To minimize the burden on grantees, HUD will, where applicable, enter available information from each grantee's quarterly progress reports and final project report into the questionnaire responses prior to administering the questionnaire by telephone, at which time the information will be confirmed.

Agency Form Numbers: None.

Members of Affected Public: Managers of programs funded by grants provided under the Healthy Homes Initiative.

Total Burden Estimate: Number of respondents: 2.5 for each of the 63 grantees = 157.5; Frequency of responses = 1; Hours per response = 4 (including preparation); Burden hours: total estimate = 630.

Status of the Proposed Information Collection: New request.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: January 4, 2006.

Warren Friedman,

Deputy Director, Office of Healthy Homes and Lead Hazard Control.

BILLING CODE 4210-70-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered and Threatened Wildlife and Plants; 5-Year Review of Mt. Graham Red Squirrel and Little Colorado Spinedace

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of review.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces a 5-year review of the Mt. Graham red squirrel (*Tamiasciurus hudsonicus grahamensis*) and the Little Colorado spinedace (*Lepidomeda vittata*) under 4(c)(2)(A) of the Endangered Species Act of 1973 (Act). The purpose of reviews conducted under this section of the Act is to ensure that the classification of species as threatened or endangered on the List of Endangered and Threatened Wildlife and Plants (50 CFR 17.12) is accurate. The 5-year review is an assessment of the best scientific and commercial data available at the time of the review.

DATES: To allow adequate time to conduct this review, information submitted for our consideration must be received on or before April 11, 2006. However, we will continue to accept information about any listed species at any time.

ADDRESSES: Information submitted on these species should be sent to the U.S. Fish and Wildlife Service at the following address. Information received in response to this notice of review will be available for public inspection by appointment, during normal business hours, at the same addresses.

Information regarding the Mt. Graham red squirrel and Little Colorado spinedace should be sent to the Field Supervisor, Attention 5-year Review, U.S. Fish and Wildlife Service, Arizona Ecological Services Office, 2321 West Royal Palm Road, Suite 103, Phoenix, AZ 85021.

FOR FURTHER INFORMATION CONTACT: For the Mt. Graham red squirrel, contact

Thetis Gamberg at the Arizona Ecological Services Tucson Sub-office, 201 North Bonita, Suite 141, Tucson, AZ 85745, 520-670-6150 x 231, thetis_gamberg@fws.gov. For the Little Colorado spinedace, contact Shaula Hedwall at the Arizona Ecological Services Flagstaff Sub-office, 323 North Leroux, Suite 101, Flagstaff, AZ 86001, 928-226-0614 x 103, shaula_hedwall@fws.gov.

SUPPLEMENTARY INFORMATION:

Why Is a 5-Year Review Conducted?

Section 4(c)(2)(A) of the Act (16 U.S.C. 1531 *et seq.*) requires that we conduct a review of listed species at least once every 5 years. We are then, under section 4(c)(2)(B) and the provisions of subsections (a) and (b), to determine, on the basis of such a review, whether or not any species should be removed from the List of Endangered and Threatened Wildlife and Plants (delisted), or reclassified from endangered to threatened (downlisted), or from threatened to endangered (uplisted). The 5-year review is an assessment of the best scientific and commercial data available at the time of the review. Therefore, we are requesting submission of any new information (best scientific and commercial data) on the following species since their original listings as either endangered (Mt. Graham red squirrel) or threatened (Little Colorado spinedace). If the present classification of either of these species is not consistent with the best scientific and commercial information available, the Service will recommend whether or not a change is warranted in the Federal classification of the species. Any change in Federal classification would require a separate final rule-making process.

Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species currently under active review. This notice announces our active review of the Mt. Graham red squirrel and Little Colorado spinedace.

What Information Is Considered in the Review?

A 5-year review considers all new information available at the time of the review. These reviews will consider the best scientific and commercial data that have become available since the current listing determination or most recent status review of each species, such as:

A. Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics;

B. Habitat conditions, including but not limited to amount, distribution, and suitability;

C. Conservation measures that have been implemented to benefit the species;

D. Threat status and trends (see five factors under heading "How do we determine whether a species is endangered or threatened?"); and

E. Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List of Endangered and Threatened Wildlife and Plants, and improved analytical methods.

Specific Information Requested for the Mt. Graham Red Squirrel

We specifically request information regarding the species' life history, habitat requirements, and distribution. We also request information on threats, including predation, competition, and habitat loss. We further request information on designated critical habitat.

Specific Information Requested for the Little Colorado Spinedace

We specifically request information regarding the current distribution of populations and evaluation of the degree of habitat protection for each population, and information regarding management plans and techniques for improving and maintaining spinedace habitat. We also are particularly interested in recent information regarding conservation measures that have been implemented to benefit the species.

How Are the Mt. Graham Red Squirrel and Little Colorado Spinedace Currently Listed?

The List of Endangered and Threatened Wildlife and Plants (List) is found in 50 CFR 17.11 (wildlife) and 17.12 (plants). Amendments to the List through final rules are published in the **Federal Register**. The List is also available on our Internet site at <http://endangered.fws.gov/wildlife.html#Species>. In Table 1 below, we provide a summary of the listing information for the species under active review.
