

trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments and perfect the mechanisms of a free and open market and to protect investors and the public interest.

The Exchange represents that the modified Market Imbalance calculation will provide Users¹⁶ with more information about the number of Market Orders and MOC Orders available for execution on the side of the market with an excess number of such orders during the applicable auction. The Commission believes that the Exchange's proposal is reasonably designed to promote transparency of the available Market Orders and MOC Orders that have been submitted to participate in the applicable auction. The Commission also believes that the proposed rule change, as amended, appears to be reasonably designed to promote competition among Users seeking to execute against Market Orders and MOC Orders, which are executed before marketable Limit Orders and LOC orders during the Market Order Auction and Closing Auction, respectively.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁷ that the proposed rule change, as amended, (SR-PCX-2004-46) be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority,¹⁸

Nancy M. Morris,
Secretary.
