### **National Institutes of Health**

#### **Submission for OMB Review; Comment Request; Field Test of the Discovering the Science of Alcohol Curriculum**

**SUMMARY:** Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institute on Alcohol Abuse and Alcoholism (NIAAA), the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request to review and approve

the information collection listed below. This proposed information collection was previously published in the **Federal Register** on August 15, 2005, page 47840 and allowed 60 days for public comment. One public comment was received from the New York State Office of Alcoholism and Substance Abuse Services (OASAS) and was responded to on August 31, 2005. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

**Proposed Collection**

*Title:* Field Test of the Discovering the Science of Alcohol Curriculum.

*Type of Information Collection*

*Request:* New.

*Need and Use of Information*

*Collection:* The Discovering the Science of Alcohol curriculum (DSA) was developed with a Phase II SBIR grant to bring accurate, research-based information to high school students in biology and science classrooms. The curriculum includes standards-based content objectives and assessment

activities. Curriculum materials include a teacher's guide and Web site. The field test is necessary to estimate the DSA curriculum's effectiveness in conveying information to students and teachers.

Specifically, the field study is designed to enable NIAAA to determine whether teachers and students who complete the DSA curriculum demonstrate significantly greater knowledge of the topics covered in the curriculum than teachers and students who do not use the DSA curriculum. In addition, the study is designed to enable NIAAA to determine whether the students who are exposed to the curriculum components self-report different beliefs, attitudes, and intentions regarding alcohol use than their counterparts who are not exposed to the curriculum at their schools.

Participating in this field test will be an experimental group of 30 high school biology classrooms with a total of approximately 400 to 500 students and a control group of 30 high school biology classrooms with approximately 400 to 500 students. Teachers and students from grades 9, 10, 11, and 12 will comprise both groups. The field test will include two surveys: (1) An online, computerized survey that measures teachers' knowledge of the DSA curriculum components and teacher

satisfaction with the DSA curriculum components. (2) For students, an anonymous, online, computerized survey that measures three factors: (a) Student knowledge of the DSA components, (b) student attitudes, beliefs, and intentions, and (c) student satisfaction with the DSA curriculum components.

*Frequency of response:* Once per respondent.

*Affected Public:* Individuals.

*Type of Respondents:* Biology/Science teachers and high school students.

The reporting burden is as follows:

*Estimated Number of Respondents:* It is estimated that we will be able to recruit approximately 60 teachers and approximately 1000 students.

*Estimated Number of Responses per Respondent:* One Response per respondent.

*Average Burden Hours per Response:* 15 minutes per individual in the control group and 30 minutes per individual in the experimental group, for a total respondent burden of 662.5 hours.

*Estimated Costs to Respondents:* Assuming an hourly rate of \$22 for teachers, we estimate the total costs to be \$825. There are no Capital Costs to report. There are no Operating or Maintenance costs to report.

TABLE 1.—TOTAL RESPONDENTS AND BURDEN

Instrument	Number of respondents	Hours per respondent	Hourly rate	Total hour burden	Estimated monetary cost of burden
Experimental Group:					
Teacher content knowledge instrument & curriculum satisfaction survey .....	30	0.75	\$22	22.5	\$495
Student survey (knowledge, attitudes and intentions) & curriculum satisfaction survey .....	500	0.75	0	375	0
Control Group:					
Teacher content knowledge instrument .....	30	0.50	22	15	330
Student survey (knowledge, attitudes and intentions)	500	0.50	0	250	0
Total .....	1060	—	—	662.5	\$825

*Request for comments:* Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the

collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other form of information technology.

*Direct Comments to OMB:* Written comments and/or suggestions regarding the items(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, New Executive Office Building, Room 10235, Washington, DC 20503, Attention: Desk Officer for NIH. To request more

information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Jason I. Lazarow, NIH/NIAAA/ORTC/HSEB, 5635 Fishers Lane, Room 3101, MSC 9304, Bethesda, MD 20892-9304, or e-mail your request to: [jlazarow@mail.nih.gov](mailto:jlazarow@mail.nih.gov). Mr. Lazarow can be contacted by telephone at 301-435-8043.

*Comments Due Date:* Comments regarding this information collection are best assured of having their full effect if received within 30 days of the date of this publication.

Dated: January 5, 2005.

**Stephen Long,**

*Executive Officer, NIAAA.*

### National Institutes of Health

#### National Cancer Institute; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

*Name of Committee:* National Cancer Institute Initial Review Group, Subcommittee G—Education.

*Date:* February 13–14, 2006.

*Time:* 8 a.m. to 5 p.m.

*Agenda:* To review and evaluate grant applications.

*Place:* Double Tree Rockville, 1750 Rockville Pike, Rockville, MD 20852.

*Contact Person:* Sonya Roberson, PhD, Scientific Review Administrator, Resources and Training Review Branch, Division of Extramural Activities, National Cancer Institute, 6116 Executive Blvd., Room 8045, Bethesda, MD 20892, (301) 594-1182, [roberson@mail.nih.gov](mailto:roberson@mail.nih.gov).

## DEPARTMENT OF HOMELAND SECURITY

### Security of Aircraft and Safety of Passengers Transiting Denpasar, Bali, Indonesia

**AGENCY:** Department of Homeland Security.

**ACTION:** Notice.

**SUMMARY:** This document informs the public that the Department of Homeland Security (DHS) has determined that Bandara Ngurah Rai International Airport, Denpasar, Bali, Indonesia, does not maintain and carry out effective security measures. Pursuant to this determination, the Department of Homeland Security is directing all U.S. and foreign air carriers (and their agents) providing service between the U.S. and Bandara Ngurah Rai International Airport to provide notice of this determination to any passenger purchasing a ticket for transportation between the United States and Bandara Ngurah Rai International Airport. DHS also is requiring that U.S. airports post a notice of the determination, in accordance with statutory requirements.

**FOR FURTHER INFORMATION CONTACT:**

Richard H. Stein, General Manager, International, Transportation Security Administration, 601 South 12th Street, Arlington, VA 22202-4220, Telephone: (571) 227-2764, e-mail: [Richard.Stein@dhs.gov](mailto:Richard.Stein@dhs.gov).

#### Notice

Pursuant to 49 U.S.C. 44907(a), the Secretary of Homeland Security (the Secretary) is authorized to assess periodically the effectiveness of the security measures maintained by foreign airports that handle air carriers serving the United States or that may pose a "high risk of introducing danger to international air travel." If the Secretary determines that a foreign airport does not maintain and carry out effective security measures, the Secretary is required to "notify the appropriate authorities of the government of the foreign country of the decision and recommend the steps necessary to bring the security measures up to the standard used \* \* \* in making the assessment." 49 U.S.C. 44907(c).

Further, the Secretary must: (a) Publish the identity of the foreign airport in the **Federal Register**, (b) post the identity of such airport at all U.S. airports that regularly provide scheduled air carrier operations, and (c) notify the news media of the identity of the airport. 49 U.S.C. 44907(d). In addition, the statute requires all air carriers providing service between the

United States and the airport to provide written notice of the determination, either on or with the ticket, to all passengers purchasing transportation between the United States and the airport. 49 U.S.C. 44907(d)(1)(B).

On December 23, 2005, the Secretary of Homeland Security notified the Government of Indonesia that, under 49 U.S.C. 44907, he had determined that Bandara Ngurah Rai International Airport (DPS), Denpasar, Bali, Indonesia, did not maintain and carry-out effective security measures. He based the determination on Transportation Security Administration (TSA) assessments that security measures used at DPS did not meet the standards established by the International Civil Aviation Organization (ICAO).

The Department of Homeland Security (DHS) is issuing this document, pursuant to 49 U.S.C. 44907(d)(1), to inform the public of this determination. DHS directs that all U.S. airports with regularly scheduled air carrier operations prominently display a notice of the determination. Further, DHS is notifying the news media of this determination. In addition, as a result of this determination, 49 U.S.C. 44907(d)(1)(B) requires that each U.S. and foreign air carrier (and their agents) providing transportation between the United States and DPS provide notice of the Department's determination to each passenger buying a ticket for transportation between the United States and DPS, with such notice to be made by written material included on or with such ticket.

Dated: December 23, 2005.

**Michael Chertoff,**

*Secretary.*

## DEPARTMENT OF HOMELAND SECURITY

### National Bio and Agro-Defense Facility (NBAF); Notice of Request for Expression of Interest for Potential Sites for the NBAF

**AGENCY:** Science and Technology Directorate (Office of Research & Development), DHS.

**SUMMARY:** The U.S. Department of Homeland Security (DHS) is exploring potential sites for a proposed new national research and development (R&D) asset, the National Bio and Agro-Defense Facility (NBAF), which is in the planning phase. The proposed facility size is approximately 500,000 ft<sup>2</sup> and its site will require a minimum of 30 acres.
