

costs for all entities subject to the TSR is \$5,613,200.⁵

Finally, staff believes that the estimated 4,000 inbound telemarketing entities choosing to comply with the Rule through written disclosures incur no additional capital or operating expenses as a result of the Rule's requirements because they are likely to provide written information to prospective customers in the ordinary course of business. Adding the required disclosures to that written information likely requires no supplemental non-labor expenditures.
