[Docket No. CP96-339-002]

Total Peaking Services, LLC; Notice of Application To Amend Certificate

January 18, 2006.

Take notice that Total Peaking Services, LLC (TPS) filed in DocketNo. CP96-339-002 on January 6, 2006, pursuant to sections 7 (c) of the Natural Gas Act (NGA) and Part 157 of the Commission's Regulations, an application to amend its certificate of public convenience and necessity issued by the Commission on November 25, 1997.¹ TPS has increased the efficiency of its operations at the liquefied natural gas peak-shaving facility located in Milford, Connecticut and requests the Commission's authorization to increase the sendout capacity from 72 MMcf/d to 90 MMcf/d, all as more fully set forth in the application which is on file with the Commission and open to public

inspection. This filing may be also viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call (202) 502-8659 or TTY, (202) 208-3676.

Any questions regarding this application should be directed to Tim D. Kelly, Vice President, Energy Services & Regulatory Affairs, c/o Connecticut Natural Gas and The Southern Connecticut Gas Company, P.O. Box 1500, Hartford, CT 06144-1500, at (860) 727-3344 or fax (860) 727-3387.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents,

and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER06-230-000]

Wolverine Creek Energy LLC; Notice of Issuance of Order

January 18, 2006.

Wolverine Creek Energy LLC filed an application for market-based rate authority, with an accompanying rate tariff. The proposed market-based rate schedule provides for the sales of capacity, energy and ancillary at market-based rates. Wolverine also requested waiver of various Commission regulations. In particular, Wolverine requested that the Commission grant blanket approval under 18 CFR Part 34 of all future issuances of securities and assumptions of liability by Wolverine.

On January 13, 2006, pursuant to delegated authority, the Director, Division of Tariffs and Market Development—West, granted the request for blanket approval under Part 34. The Director's order also stated that the Commission would publish a separate notice in the **Federal Register** establishing a period of time for the filing of protests. Accordingly, any person desiring to be heard or to protest the blanket approval of issuances of securities or assumptions of liability by Wolverine should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214

¹ 81 FERC ¶ 61,246 (1997).
