

HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this Notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1-800-927-7588 for detailed instructions or write a letter to Mark Johnston at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the **Federal Register**, the landholding agency, and the property number.

For more information regarding particular properties identified in this Notice (*i.e.*, acreage, floor plan, existing sanitary facilities, exact street address), providers should contact the appropriate landholding agencies at the following addresses: **GSA**: Mr. John Kelly, Acting Deputy Assistant Commissioner, General Services Administration, Office of Property Disposal, 18th and F Streets, NW., Washington, DC 20405; (202) 501-0084; **Navy**: Mr. Warren Meekins, Department of the Navy, Real Estate Services, Naval Facilities Engineering Command, Washington Navy Yard, 1322 Patterson Ave., SE., Suite 1000, Washington, DC 20374-5065; (202) 685-9305; (These are not toll-free numbers).

Dated: January 19, 2006.

Mark R. Johnston,

Acting Deputy Assistant Secretary for Special Needs.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Information Collection To Be Sent to the Office of Management and Budget (OMB) for Approval Under the Paperwork Reduction Act; Research To Support Analysis and Management of Carrying Capacity at Lake Umbagog National Wildlife Refuge

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (Fish and Wildlife Service) plan to request that OMB approve our information collection associated with research to support analysis and management of the carrying capacity at Lake Umbagog National Wildlife Refuge in Errol, New Hampshire. We will request that OMB approve this information collection for a 1-year term.

DATES: You must submit comments on or before March 28, 2006.

ADDRESSES: Send your comments on the information collection to Hope Grey, Information Collection Clearance

Officer, Fish and Wildlife Service, MS 222-ARLSQ, 4401 N. Fairfax Drive, Arlington, VA 22203 (mail); hope_grey@fws.gov (e-mail); or (703) 358-2269 (fax).

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection requirements, explanatory information, or related material, contact Hope Grey, Information Collection Clearance Officer, at the above addresses or by telephone at (703) 358-2482.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR 1320, which implement the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). Federal agencies may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Lake Umbagog National Wildlife Refuge contains significant natural and recreational resources. We estimate that the area accommodates over 50,000 visits per year, and this can result in significant resource and social impacts. We propose to gather information that will help support application of visitor carrying capacity at Lake Umbagog National Wildlife Refuge. Study objectives will focus on three elements of carrying capacity frameworks that can benefit the most from empirical data: (1) Collecting baseline data on visitor use and perceptions of associated resource and social impacts, (2) identifying indicators and standards of quality, and (3) management of visitor use to ensure that we maintain standards of quality.

Title of Collection: Research to Support Analysis and Management of Carrying Capacity at Lake Umbagog National Wildlife Refuge.

OMB Control Number: This is a new collection.

Service Form Number: None.

Frequency of Responses: One time per respondent.

Description of Respondents: Visitors to Lake Umbagog National Wildlife Refuge.

Estimated Number of Respondents: 500.

Estimated Number of Responses: 500.

Estimated Total Annual Burden Hours: 125 hours. We estimate that the reporting burden will average 15 minutes per respondent.

We invite your comments concerning this information collection on: (1) Whether or not the collection of

information is necessary to properly manage visitor carrying capacity, including whether or not the information will have practical utility; (2) the accuracy of our burden estimate; (3) ways to enhance the quality, utility and clarity of the information we want to collect; and (4) ways to minimize the burden of the collection of information on respondents.

The information collections in this program are part of a system of records covered by the Privacy Act (5 U.S.C. 552a). Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home addresses from the record, which we will honor to the extent allowable by law. There may also be limited circumstances in which we would withhold a respondent's identity from the administrative record, as allowable by law. If you wish us to withhold your name and/or address, you must state this clearly at the beginning of your comment. We will not consider anonymous comments. We generally make all submissions from organizations or businesses and from individuals identifying themselves as representatives or officials of organizations or businesses available for public inspection in their entirety.

Dated: January 13, 2006.

Hope Grey,

*Information Collection Clearance Officer,
Fish and Wildlife Service.*

Fish and Wildlife Service

Final Comprehensive Conservation Plan and Finding of No Significant Impact for the Steigerwald Lake, Franz Lake, and Pierce National Wildlife Refuges, Located in Clark County and Skamania County, WA

AGENCY: Fish and Wildlife Service, DOI.

ACTION: Notice of decision and availability of the Finding of No Significant Impact and Final Comprehensive Conservation Plan.

SUMMARY: This notice advises the public that the U.S. Fish and Wildlife Service (Service) has prepared a Final Comprehensive Conservation Plan (Final CCP) and related Finding of No Significant Impact (FONSI) for the Steigerwald Lake, Franz Lake, and Pierce National Wildlife Refuges (Gorge

Refuges). The Gorge Refuges are located in southwest Washington within the Columbia River Gorge National Scenic Area. The Final CCP was prepared pursuant to the National Wildlife Refuge System Administration Act, as amended, and in accordance with the National Environmental Policy Act of 1969 (NEPA) and its implementing regulations. The Service's Regional Director for the Pacific Region has considered a reasonable range of management alternatives and has selected Alternative B of the CCP for managing the Gorge Refuges for the next 15 years.

DATES: The Final CCP and FONSI are available now. The FONSI was signed on August 26, 2005. Implementation of the Final CCP may begin immediately.

ADDRESSES: Printed copies of the Final CCP are available for viewing at Ridgefield National Wildlife Refuge Complex Headquarters, 301 N. Third Avenue, Ridgefield, WA. These documents and other project information are also available online for viewing and downloading at <http://pacific.fws.gov/planning>. Copies of the Final CCP may be obtained by writing to the Ridgefield National Wildlife Refuge Complex, P.O. Box 457, Ridgefield, WA 98642.

FOR MORE INFORMATION CONTACT: Project Leader, Ridgefield National Wildlife Refuge Complex, P.O. Box 457, Ridgefield, WA 98642, phone (360) 887-4106.

SUPPLEMENTARY INFORMATION: The Gorge Refuges are located in Skamania and Clark Counties, Washington, in the Columbia River Gorge downstream of Bonneville Dam. The administration center for these Refuges is the Ridgefield National Wildlife Refuge Complex, located 25 miles northwest of Steigerwald Lake Refuge. Planning for the Gorge Refuges occurred simultaneously because: the Refuges are located in close proximity to one another within the Columbia River floodplain; many of the same issues and management opportunities occur at all three Refuges; and they are all part of the lower Columbia River ecosystem.

The Gorge Refuges are part of the National Wildlife Refuge System (NWRS) administered by the Service. It is Service policy to have all lands within the NWRS managed in accordance with an approved CCP. The CCP guides management decisions and identifies refuge goals, long-range objectives, and strategies for achieving refuge purposes. During the planning process for the Gorge Refuges' CCP, many elements were considered, including habitat and wildlife
