SUPPLEMENTARY INFORMATION:

Title: PPQ Form 816; Contract Pilot and Aircraft Acceptance.

OMB Number: 0579-XXXX.

Type of Request: Approval of a new information collection.

Abstract: The Plant Protection Act of 2000 directs the Secretary of Agriculture to carry out a program, subject to available funds, to control grasshoppers

and Mormon crickets on all Federal lands to protect rangeland. The Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture carries out this program, primarily by treating infested lands by aerial spraying of pesticides from aircraft. APHIS contracts for these services, and prior to any aerial applications, requests certain information from the contractor and/or contract pilots to ensure that the work will be done according to contract specifications. Among other things, APHIS asks to see aircraft registration, the aircraft's airworthiness certificate, the pilot's license, the pilot's medical certification, the pilot's proof of flight review, the pilot's pesticide applicator's license, and the aircraft logbook. APHIS transfers information from these documents to PPQ Form 816, which is then signed by the APHIS official collecting the information and the contractor or contract pilot, indicating acceptance of the pilot and aircraft for the job.

We are asking the Office of Management and Budget (OMB) to approve our use of this information collection activity for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimated annual number of respondents: 100.
