DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Availability Technical/Agency Draft of the Third Revision of the Florida Panther Recovery Plan for Review and Comment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability and public comment period.

SUMMARY: The Fish and Wildlife Service announces the availability of the Technical/Agency Draft of the Third Revision of the Florida Panther Recovery Plan. The Florida panther (*Puma concolor coryi*) has disappeared from more than 95 percent of its historic range as a result of human persecution and habitat loss. This draft of the recovery plan includes specific recovery objectives and criteria to be met in order to reclassify (downlist) and eventually delist the Florida panther under the Endangered Species Act of 1973, as amended (Act). The Service solicits review and comment on this draft recovery plan.

DATES: In order to be considered, we must receive comments on the draft recovery plan on or before April 3, 2006.

ADDRESSES: Copies of the Technical/Agency Draft of the Third Revision of the Florida Panther Recovery Plan can be obtained by contacting the U.S. Fish and Wildlife Service, South Florida Ecological Services Office, 1339 20th Street, Vero Beach, Florida 32960 (772-562-3909) or by visiting our Web sites at <http://endangered.fws.gov> or <http://verobeach.fws.gov>. If you wish to comment, you may submit your comments by either of two methods:

1. You may submit written comments and materials to the Field Supervisor, at the above address.
2. You may hand-deliver written comments to our South Florida Ecological Services Office, 1339 20th Street, Vero Beach, Florida 32960, or fax your comments to (772) 562-4288.

Comments and materials received are available for public inspection on request, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Chris Belden at the South Florida Ecological Services Office, (772) 562-3909, ext. 237.

SUPPLEMENTARY INFORMATION:

Background

Restoring listed animals and plants to the point where they are again secure, self-sustaining components of their ecosystems is a primary goal of our threatened and endangered species program. To help guide the recovery effort, we prepare recovery plans for listed species native to the United States, pursuant to section 4(f) of the Act, unless such a plan would not promote the conservation of a particular species. Recovery plans describe actions that may be necessary for conservation of the species, establish criteria for reclassification from endangered to threatened status or removal from the list of threatened and endangered species, and estimate the time and cost for implementing the needed recovery measures.

The Florida panther is the last subspecies of *Puma* still surviving in the eastern United States. Historically occurring throughout the southeastern United States, today the panther is restricted to less than 5 percent of its historic range in one breeding population of fewer than 100 animals, located in south Florida.

The panther is threatened with extinction, and human development in panther habitat negatively impacts recovery. Panthers are wide ranging, secretive, and occur at low densities. They require large contiguous areas to meet their social, reproductive, and energetic needs. Panther habitat selection is related to prey availability (*i.e.*, habitats that make prey vulnerable to stalking and capturing are selected). Limiting factors for the panther are habitat availability, prey availability, and lack of human tolerance.

Habitat loss, degradation, and fragmentation are among the greatest threats to panther survival, while human intolerance of panthers is one of the greatest threats to their recovery. Vehicle strikes and problems associated with being a single, small, isolated population have continued to keep the panther population at its current low numbers. Potential panther habitat throughout the Southeast continues to be affected by urbanization, residential development, conversion to agriculture and silviculture, mining and mineral
