Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS) is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* Extension Collection; *Title of Information Collection:* Collection of Prescription Drug Data from MA-PD, PDP and Fallout Plans/Sponsors for Medicare Part D Payments; *Use:* The Medicare Prescription Drug Improvement and Modernization Act (MMA) requires Medicare payment to Medicare Advantage (MA) organizations, prescription drug plans (PDP) sponsors, fallbacks, and other plan sponsors offering coverage of outpatient prescription drugs under the new Medicare Part D benefit. The MMA provided four summary mechanisms for paying plans: direct subsidies, subsidized coverage for qualifying low-income individuals, Federal reinsurance subsidies, and risk corridor payments. In order to make payment in accordance with these provisions, CMS has determined it needs to collect a limited set of data elements for 100 percent of prescription drug claims or events from plans offering Part D coverage. The transmission of the statutorily required data will be in an electronic format. The information users will be Pharmacy Benefit Managers (PBM), third party administrators and pharmacies, and the PDPs, MA-PDs, Fallbacks, and other

plan sponsors that offer coverage of outpatient prescription drugs under the new Medicare Part D benefit to Medicare beneficiaries. The statutorily required data will be used primarily for payment, claims validation, quality monitoring, and program integrity and oversight; *Form Number:* CMS-10174 (OMB#: 0938-0982); *Frequency:* Monthly, Quarterly and Annually; *Affected Public:* Business or other for-profit, and not-for-profit institutions; *Number of Respondents:* 455; *Total Annual Responses:* 2,418,000,000; *Total Annual Hours:* 4,836.

2. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Medicare Participating Physician or Supplier Agreement; *Form No.:* CMS-460 (OMB# 0938-0373); *Use:* Form number CMS-460 is completed by nonparticipating physicians and suppliers if they choose to participate in Medicare Part B. By signing the agreement, the physician or supplier agrees to take assignment on all Medicare claims. To take assignment means to accept the Medicare allowed amount as payment in full for the services they furnish and to charge the beneficiary no more than the deductible and coinsurance for the covered service. In exchange for signing the agreement, the physician or supplier receives a significant number of program benefits not available to nonparticipating suppliers. The information associated with this collection is needed to identify the recipients of the program benefits; *Frequency:* Reporting, Other—when starting a new business; *Affected Public:* Business or other for-profit, Individuals or Households; *Number of Respondents:* 6000; *Total Annual Responses:* 6000; *Total Annual Hours:* 1500.

3. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Medicare Contractor Provider Satisfaction Survey (MCPSS); *Form No.:* CMS-10097 (OMB# 0938-0915); *Use:* The Centers for Medicare & Medicaid Services will obtain feedback from over 30,000 Medicare providers via a survey about satisfaction, attitudes and perceptions regarding the services provided by Medicare Fee-for-Service (FFS) Carriers, Fiscal Intermediaries, Durable Medical Equipment Suppliers, and Regional Home Health Intermediaries and Medicare Administrative Contractors. The survey focuses on basic business functions provided by the Medicare Contractors such as inquiries, provider communications, claims processing, appeals, provider enrollment, medical review and provider audit &

reimbursement. Providers will receive a notice requesting they use a specially constructed web site to respond to a set of questions customized for their contractor's responsibilities. The survey will be conducted yearly and annual reports of the survey results will be available via an online reporting system for use by CMS, Medicare Contractors, and the general public; *Frequency:* Reporting—Annually; *Affected Public:* Business or other for-profit, not-for-profit institutions; *Number of Respondents:* 20,514; *Total Annual Responses:* 20,514; *Total Annual Hours:* 7209.

Emergency Clearance: Public Information Collection Requirements Submitted to the Office of Management and Budget (OMB)

AGENCY: Center for Medicare and Medicaid Services.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare and Medicaid Services (CMS), Department of Health and Human Services, is publishing the following summary of proposed

collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

We are, however, requesting an emergency review of the information collection referenced below. In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we have submitted to the Office of Management and Budget (OMB) the following requirements for emergency review. We are requesting an emergency review because the collection of this information is needed before the expiration of the normal time limits under OMB's regulations at 5 CFR Part 1320. This is necessary to ensure compliance with an initiative of the Administration. We cannot reasonably comply with the normal clearance procedures because of an unanticipated event. Due to the CMS mandatory deadlines set forth by OMB for Agencies to have full disclosure financial statements prepared and independently audited, the CMS requests an emergency clearance process based on 5 CFR 1320.13(a)(2)(ii).

The approval of this information collection process is essential in order to comply with Section 3515 of the Chief Financial Officers (CFO) Act that requires government agencies to produce auditable financial statements in accordance with Office of Management and Budget (OMB) guidelines on form and content. The Government Management and Reform Act of 1994 requires all offices, bureaus and associated activities of the 24 CFO Act agencies to be covered in an agency-wide, audited financial statement. CMS fulfills its mission through its contractors and the States. These entities are the primary source of information for the financial statements. Collection of State Children's Health Insurance Program (SCHIP) data and the calculation of the SCHIP Incurred But Not Reported (IBNR) estimate are pertinent to CMS' financial audit. The CFO auditors have reported the lack of an estimate for SCHIP IBNR payables and receivables as a reportable

condition in the FY 2005 audit of CMS' financial statements.

1. *Type of Information Collection Request:* New collection; *Title of Information Collection:* State Children's Health Insurance Program (SCHIP) Report on Payables and Receivables; *Use:* Collection of SCHIP data and the calculation of the SCHIP Incurred But Not Reported (IBNR) estimate are pertinent to CMS' financial audit. The CFO auditors have reported the lack of an estimate for SCHIP IBNR payables and receivables as a reportable condition in the FY 2005 audit of CMS's financial statements. It is essential that CMS collect the necessary data from State agencies in FY 2006, so that CMS continues to receive an unqualified audit opinion on its financial statements. Program expenditures for the SCHIP have increased since its inception; as such, SCHIP receivables and payables may materially impact the financial statements. The SCHIP Report on Payables and Receivables will provide the information needed to calculate the SCHIP IBNR.; *Form Number:* CMS-10180 (OMB#: 0938-NEW); *Frequency:* Reporting—Annually; *Affected Public:* State, Local, or Tribal governments; *Number of Respondents:* 56; *Total Annual Responses:* 56; *Total Annual Hours:* 336.

CMS is requesting OMB review and approval of this collection by March 20, 2006, with a 180-day approval period. Written comments and recommendation will be considered from the public if received by the individuals designated below by March 6, 2006.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access CMS' Web site address at <http://www.cms.hhs.gov/PaperworkReductionActof1995> or e-mail your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@cms.hhs.gov, or call the Reports Clearance Office on (410) 786-1326.

Interested persons are invited to send comments regarding the burden or any other aspect of these collections of information requirements. However, as noted above, comments on these information collection and recordkeeping requirements must be mailed and/or faxed to the designees referenced below by January 31, 2005:
