Title: Corporate Security Review (CSR).

Type of Request: Extension of a currently approved collection.

OMB Control Number: 1652-0036.

Forms(s): Corporate Security Review Form.

Affected Public: Surface transportation system owners and operators.

Abstract: The Aviation and Transportation Security Act (ATSA) (Pub. L. 107-71, 115 Stat. 597, Nov. 19, 2001) requires TSA to oversee the security of the nation's surface transportation system. Specifically, ATSA grants TSA authority to execute its responsibilities for:

- Enhancing security in all modes of transportation (49 U.S.C. 114(d));
- Assessing intelligence and other information in order to identify individuals who pose a threat to transportation security and to coordinate countermeasures with other Federal agencies to address such threats (49 U.S.C. 114(f)(1)-(5), (h)(1)-(4)); and
- Identifying and coordinating countermeasures to address threats to the transportation system (49 U.S.C. 114(f)(4)), including the authority to receive, assess, and distribute intelligence information related to transportation security; (49 U.S.C. 114(f)(1)-(4)).

To support these requirements, TSA assesses the current security practices in the surface transportation sector by way of site visits and interviews through its Corporate Security Review (CSR) program, one piece of a much larger domain awareness, prevention, and protection program in support of TSA's and Department of Homeland Security's missions. TSA is requesting continued approval for this collection to allow TSA to continue to ascertain minimum-security standards and identify coverage gaps, activities that are critical to its mission of ensuring transportation security. TSA assures respondents that the portion of their responses TSA deems Sensitive Security Information will be handled as such, as described in 49 CFR parts 15 and 1520.

Number of Respondents: 500.

Estimated Annual Burden Hours: An estimated 1,200 hours annually.

Issued in Arlington, Virginia, on January 25, 2006.

Lisa S. Dean,

Privacy Officer.
