The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-filing" link.

o. At this time, Commission staff intends to prepare an Environmental Assessment (EA) for the project, in accordance with the National Environmental Policy Act (NEPA).

Scoping Meetings

We will hold two scoping meetings at the times and places noted below. The daytime meeting will focus on resource agency, Indian tribes, and non-governmental organization concerns, while the evening meeting is primarily for receiving input from the public. We invite all interested individuals, organizations, and agencies to attend one or both of the meetings, and to assist staff in identifying particular study needs, as well as the scope of environmental issues to be addressed in the environmental document. SD1, which outlines the subject areas to be addressed in the environmental document, has been mailed to the individuals and entities on the Commission's mailing list. Copies of SD1 will be available at the scoping meetings, or may be viewed on the web at <http://www.ferc.gov>, using the "eLibrary" link. Follow the directions for accessing information in paragraph m. Depending on the extent of comments received, a Scoping Document 2 (SD2) may or may not be issued.

Site Visit

A site visit is typically held in conjunction with the scoping meeting. However, anticipating that access to some project facilities would be limited by winter weather, the co-licensees hosted a project site visit on October 17, 2005. The site visit was noticed by the Commission on September 20, 2005 and attended by Commission staff on October 17, 2005. For these reasons, the Commission will not host its own site visit in conjunction with its NEPA scoping meeting.

Scoping Meeting Objectives

At the scoping meetings, staff will: (1) Present the proposed list of issues to be addressed in the EA; (2) review and discuss existing conditions and resource agency management objectives; (3)

review and discuss existing information and identify preliminary information and study needs; (4) review and discuss the process plan and schedule for pre-filing activity that incorporates the time frames provided for in Part 5 of the Commission's regulations and, to the extent possible, maximizes coordination of federal, state, and tribal permitting and certification processes; and (5) discuss requests by any Federal or state agency or Indian tribe acting as a cooperating agency for development of an environmental document.

Meeting participants should come prepared to discuss their issues and/or concerns. Please review the Pre-Application Document in preparation for the scoping meetings. Directions on how to obtain a copy of the PAD and SD1 are included in paragraph m of this document.

Scoping Meeting Procedures

The scoping meetings will be recorded by a stenographer and will become part of the formal Commission record on the project.

Magalie R. Salas,
Secretary.
