SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16U.S.C. 824a(e)).

On January 6, 2006, the Department of Energy (DOE) received an application from Silverhill to transmit electric energy from the United States to Canada. Silverhill is a corporation formed under Ontario law with its principal place of business in Toronto, Ontario, Canada. Silverhill does not own or control any transmission or distribution assets, nor does it have a franchised service area. The electric energy which Silverhill proposes to export to Canada would be purchased from electric utilities and Federal power marketing agencies within the U.S.

Silverhill proposes to arrange for the delivery of electric energy to Canada over the existing international transmission facilities owned by Basin Electric Power Cooperative, Bonneville Power Administration, Citizens Utilities Company, Eastern Maine Electric Cooperative, International Transmission Company, Joint Owners of the Highgate Project, Long Sault, Inc., Maine Electric Power Company, Maine Public Service Company, Minnesota Power Inc., Minnkota Power Cooperative, New York Power Authority, Niagara Mohawk Power Corporation, Northern States Power, and Vermont Electric Transmission Company. The construction, operation, maintenance, and connection of each of the international transmission facilities to be utilized by Silverhill as more fully described in the application, has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

Procedural Matters: Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the date listed above.

Comments on the Silverhill application to export electric energy to Canada should be clearly marked with Docket EA–307. Additional copies are to be filed directly with George Radan,

President, Silverhill Ltd., 17 Golf Crest Road, Toronto, Ontario, M9A 1L2.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the program's Home Page at <http://www.fe.doe.gov/programs/electricityregulation/>. Upon reaching the Home page, scroll down and select "Pending Proceedings."

Issued in Washington, DC, on February 1, 2006.

[Docket No. EL06–50–000]

American Electric Power Service Corporation; Notice of Filings

February 1, 2006.

Take notice that on January 31, 2006, as supplemented on February 1, 2006,

American Electric Power Service Corporation (AEP) submitted a petition requesting that the Commission issue a declaratory order approving proposed incentive rates for a new 765 kV transmission project that newly-formed AEP Transmission Company LLC proposes to construct from west to east across PJM. AEP states that the proposed line is expected to run from West Virginia to New Jersey.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s).
