Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

Integrating HIV and Other Prevention Services into Reproductive Health and Other Community Settings—Program Evaluation—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Integrating HIV and Other Prevention Services into Reproductive Health and Other Community Settings is a training project of the CDC, National Center for Chronic Disease Prevention and Health Promotion, and its grantees (ten family planning regional training centers). The project requires twice-yearly reports from its grantees, (each of whom corresponds to one of the ten federal public health regions) on their training-centered intervention activities.

The projects deliver training and technical assistance to health provider

agencies to promote the program's objective of integrating prevention services into the existing range of services delivered by the project's health-provider agency partners. In addition, four projects are funded for adolescent reproductive health to deliver training and technical assistance to promote capacity building of communities in preventing teen pregnancy, sexually transmitted diseases, and promoting adolescent reproductive health. Promoting integrated prevention services and adolescent reproductive health are key strategies in containing the HIV epidemic in that the targeted provider agencies and the targeted communities serve at-risk populations not generally served by other health agencies where HIV prevention is a programmatic component.

Evaluation of this 5-year prevention integration program, which began September 30, 2004, will focus on process and outcome (or impact). Both process and outcome evaluation will provide data for validating program action or for redirecting program activities. On-going evaluation is a vital component for ensuring program success.

The evaluated findings from the data collection will enable the projects to be more efficient and effective in their operations and provide a direct means for submitting the twice-yearly progress reports, as mandated for all CDC cooperative agreements.

Grantees' semi-annual performance reports are due April 30 and October 30 during each year of the 5-year cooperative agreement. Using the on-line system, grantees enter data during each reporting period, and then generate a copy of their training report. Next, by the specified dates, grantees deliver this performance report and their non-structured narrative report, which explains additions, deletions, changes, and redirections of training objectives or activities, to CDC's Procurement and Grants Office.

The information obtained from the on-line performance reporting system will help the CDC meet its evaluation objectives. No proprietary items or sensitive information will be collected. There is no cost to respondents other than their time. The total estimated annualized burden hours are 26.

Estimate of Annualized Burden Table

Respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Project Organizations	10	2	77/60

Dated: February 2, 2006.

Betsey Dunaway,

Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

Centers for Disease Control and Prevention

Office of the Chief Science Officer; The Ethics Subcommittee of the Advisory Committee to the Director (ACD), Centers for Disease Control and Prevention (CDC), and the Public Health Ethics Committee, Office of the Chief Science Officer, CDC

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), CDC announces the following committee meeting.

Name: Joint Meeting of the Ethics Subcommittee, ACD, CDC, and CDC's Public Health Ethics Committee.

Time and Date: 9 a.m.-3:30 p.m., February 16, 2006.

Place: CDC Global Communications Center (Building 19), 1600 Clifton Road, Atlanta, Georgia 30333.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 60 people.

Purpose: The meeting will provide a report on the progress of CDC's efforts to increase the capacity of public health ethics, to manage issues involving public health ethics, and to identify the current and future public health ethics needs and priorities at CDC.

Matters To Be Discussed: Agenda items will include highlights of public health activities in 2005; public health ethics at CDC in 2006 and the future; a report on the Pandemic Influenza Planning consultation; public health ethics challenges (focus on science); and a discussion on needs, priorities, and action steps.

Agenda items are subject to change as priorities dictate.

Due to administrative issues that had to be resolved, the **Federal Register** notice is being published less than fifteen days before the date of the meeting.

Contact Person For More Information: Jan Devier, Dr.P.H., M.P.A., Health Scientist and Senior Advisor, Science Vision and Alliances Team, Office of the Chief Science Officer, 1600 Clifton Road, NE., M.S. D-50, Atlanta, Georgia 30333. Telephone (404) 639-4690.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities for

both CDC and the Agency for Toxic Substances and Disease Registry.

Dated: February 6, 2006.

Alvin Hall,

Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.
